## British Warship Stops Freighter On Way to Bilbao

Reported Naval Vessel Ended Attempt of British Merchant Ship to Break Through Insurgent Blockade and Reach Starving Northern Spain City

## Madrid Defenders Shoot Swimmers

Associated Press  
St. Jean de Luz, April 16.—A British merchant vessel was reported today to have been stopped by a British destroyer for attempting to run the insurgent blockade off Bilbao, northern Spain.

An earlier dispatch said that while no further word was received of the two British freighters, the Mary Llewellyn and the Saratoga, which left St. Jean de Luz harbor yesterday still carrying cargoes of food for Bilbao's refugee-swollen population of about 100,000, shipping circles understood they were bound back to England or other French ports to drop their cargoes.

## SWIMMERS FAIL

Associated Press  
Madrid, April 16.—Insurgent swimmers paddled across the darkened Manzanares River with government bullets splattering around them early today in a vain attempt to carry supplies to 3,000 marooned comrades in the University City battle zone.

## DEFENCES REORGANIZED

Associated Press  
St. Jean de Luz, France, April 16.—Two Spanish government commanders began reorganization of besieged Bilbao's defenses today in a fresh attempt to halt insurgent advances on the Basque capital.

General Martinez Cabrera, commander of the Basque nationalist army, and Brig-General Martinez Monje, government officer from Madrid, toured the war front near Bilbao.

## MOLA MOVES FORWARD

Gen. Emilio Mola meanwhile moved his field headquarters to an advanced position for a new push against the beleaguered Bilbao.

## Two Days' Wheat Loss Is Ten Cents

Canadian Press  
Winnipeg, April 16.—In as spectacular a price collapse as the Winnipeg Grain Exchange has witnessed in nearly four years, wheat futures dropped the five-cent limit again today, marking a net loss of 10 cents a bushel in two days' trading.

Wheat futures closed as follows: May \$1.31½, July \$1.27½, and October \$1.15½.

Wheat prices at Chicago registered the five-cent maximum drop.

## Canadian Exports Pass \$1,000,000,000

Shipments Rise \$212,151,489 During Year Ended March 31; Income Tax Revenue Up \$19,655,438

Canadian Press  
Ottawa, April 16.—Exports of Canadian goods in the fiscal year ended March 31 shot over the billion dollar mark, the National Revenue Department reported today.

## MARCH GAINS LARGE

In March domestic exports jumped to \$68,326,529 from \$73,445,474 in March, 1936. Imports were up to \$70,963,124 from \$52,665,119.

## NEWLYWEDS SUBSIDIZED

Italian Government Issues Decree to Increase Birthrate

Associated Press  
Rome, April 16.—The Italian cabinet today decreed sweeping measures to promote an increase in the Italian birthrate, including the authorization of marriage loans of \$50 to \$150 to induce couples to wed.

To be eligible for the loan, each member of an engaged pair must be under twenty-six years of age.

## TO SOLVE PROBLEMS

An annual state contribution of \$25,000 was ordered for the maintenance of a Fascist union of big families which will be similar to the union of ex-servicemen and will assist its members to find employment and solve their personal problems.

## Crematorium To Be Constructed

Saanich Council Reverses Former Decision and Will Back Bonds

The Saanich Council's rejection of the proposal to erect a crematorium at Royal Oak Burial Park was reconsidered and reversed yesterday evening at the request of the board of cemetery trustees.

On a motion which passed with a single vote majority the council undertook to guarantee 50 per cent of a \$16,000 bond issue to erect the crematorium.

In announcing their opposition to the motion, Councillors L. H. Passmore and E. C. Warren said they did not oppose the erection of a crematorium, but felt the government should exercise its power and grant such a crematorium a monopoly on the south end of Vancouver Island.

When the above picture of a section of the General Motors factory at Oshawa was taken a large crowd of striking workmen was milling about the gates. Indications this afternoon were they all would be at work next Monday.

## Verigin Pledges Aid to Premier

But Spiritual Leader of the Doukhobors Says He Cannot Furnish Evidence On Bombings and Burnings in Kootenay District; Thinks 30 to 40 Involved in Outrages; Suggests a Commission of Investigation; Premier In Touch With Ottawa

Bombing and bombing outrages in the Doukhobor district of British Columbia were roundly condemned by Peter Verigin, the younger, spiritual head of the Canadian Doukhobors, when he met Premier Pattullo and police officials here this morning and offered his fullest co-operation in getting at the root of the trouble.

Mr. Verigin told the Premier he believed thirty or forty persons must have been involved in the series of bombings which destroyed or partially destroyed eleven buildings in the Kootenay area in the last two weeks.

He gave the police the names of some persons who could be questioned, but was unable to furnish any direct evidence.

The Doukhobor leader said he was not in a position to give any evidence necessary to apprehend the guilty parties.

He deprecated the outrages as much as the government, he said. The Doukhobor homes would be thrown wide open for investigation by the police and might be searched without the formality of a warrant, he stated.

## WOULD FAVOR COMMISSION

Mr. Verigin told the Premier he would welcome the appointment of a government commission to investigate the whole question of the Doukhobors' position.

"Political considerations" within the Doukhobor ranks he gave as the probable reason for the outrages.

Asked for a statement after the meeting, Mr. Verigin said, through an interpreter:

"It is a political and criminal matter which we can't discuss openly. I am thankful to the Premier and the government for calling this conference, and grateful that we were invited."

Verigin was accompanied by W. A. Soukoreff, secretary of the Christian Community of Universal Brotherhood, and S. A. Lazareff, trail contractor.

## Guests Offend Japan Emperor

Canadian Press  
Tokyo, April 16.—Failure of several foreign guests to remove their overcoats in the presence of Emperor Hirohito at a cherry blossom festival was construed today by official Japanese sources as a breach of etiquette against the throne.

Imperial Household authorities said they would be more discriminating in the future in their selection of foreign guests at functions attended by the emperor.

## Many Perish In Sakhalin Floods

Associated Press  
Tokyo, April 16.—Fifty-two persons were reported drowned, injured or missing today on the Japanese-Russian island of Sakhalin as rivers swollen by rainstorms and melting snow ran over their banks.

## Earth Tremors Recorded Here

Sharp earth tremors were recorded on the Seismograph at the Victoria Observatory last night. The quake began at 7:13 o'clock, P.M., and continued for three hours. W. A. Thorn, director of the Observatory, estimated the centre of the disturbance was approximately 5,800 miles from here in a southerly direction, probably in Chile.

## Slash Budget to Save Single Mill

City Council Works On Estimates With View to Establishing Tax Rate of Forty-four Mills; Reduce Votes \$42,390 In Lengthy Session

Faced with the necessity of reducing its draft budget by another \$40,000 in order to secure a tax rate of forty-four mills, the figure recommended by D. A. Macdonald, city comptroller-treasurer, the City Council laid heavy hands on its public works, waterworks and garbage estimates last night.

When they had completed their two and one-half hour session, the mayor and aldermen had effected gross pruning of \$42,390, but had encountered a stenographic error which threatened to add another \$12,000 to the total expenditure.

## NEW TAXES IN BRITAIN SEEN

Motorists and Smokers Expected to Bear Much of New Burden

Canadian Press from Havas  
London, April 16.—The increased tax burden predicted for the coming fiscal year will be carried in the main by the motorists and smokers, The London News-Chronicle predicted today.

The paper said that when Rt. Hon. Neville Chamberlain, Chancellor of the Exchequer, brings down the budget next Tuesday he will have to find \$20,000,000 (\$68,000,000) in additional revenue.

Five possible sources were listed, of which, The News-Chronicle said, he would have to use three. They were:

1. A three-pence increase in the income tax.  
2. Creation of a new tax on drugs and cosmetics.  
3. Increase of eight-pence per pound in the tobacco tax.  
4. Increase of one penny per gallon in the gasoline tax.  
5. Restoration of the 21 per horsepower tax on automobiles instead of the 18-shilling rate now in effect.

## Leaders Advise Men to Resume and Company Will Meet Spokesmen

Way Cleared for Conferences for Settlement of Dispute at Big Automobile Plant; If Plans Carried Out Men Will Return to Work Monday While Discussions Are Held to Arrange Lasting Agreement

Canadian Press  
Oshawa, Ont., April 16.—Harry J. Carmichael, vice-president and general manager of General Motors of Canada Limited, this afternoon announced the company would agree to meet Oshawa strikers' committees if the men returned to work.

In an official statement issued from the company's offices here the executive said: "For the purpose of ending the present strike in the General Motors' plants of Canada, upon the condition that the workers will call the strike off and return to work, we hereby agree to meet the committee from the various General Motors' plants of Canada and enter into an agreement with them concerning wages, hours and working conditions, the negotiations to begin immediately upon the termination of the strike."

## Mayor Declares Hepburn Unfair

A. Hall of Oshawa Says Premier's Claim He Owes \$259 Is "Falsehood"

Canadian Press  
Oshawa, Ont., April 16.—Only the law prevents Mayor Alex Hall from giving Premier Mitchell Hepburn "the worst thrashing any man ever received," the 135-pound mayor declared today as he said he would like to teach the Ontario Premier "the first rudiments of decency."

The mayor, who was a member of the Oshawa lacrosse team, Dominion champions in 1930, would like to show the Premier "what it is to fight" because of Mr. Hepburn's statement that Hall owes the province \$259.25 from his 1933-34 term as crown attorney.

Called Falsehood  
Mayor Hall termed the claim a "downright falsehood," and said it was made on a misinterpretation of the statutes and that when he asked the government to take action to recover two years ago, the claim was dropped.

The mayor added: "It is as deplorable as it is obvious that this report follows immediately on word 'from Detroit indicating the action taken by myself may contribute to a settlement of this Oshawa strike where the Prime Minister has so ridiculously failed.'"

Peace Action May 26 and 27  
Canadian Press  
Ottawa, April 16.—A call went out today from Dominion headquarters of the League of Nations Society to thirty-five national organizations to participate in a peace action conference in Hamilton, Ont., May 26 and 27.

NO WAGE DEMANDS  
As far as could be learned there was no reference to wage demands. In an effort to obtain a conference with Harry Carmichael, vice-president and general manager of the Canadian firm, Martin telephoned C. E. Wilson, vice-president of General Motors Corporation, at Detroit.

He asked Mr. Wilson to arrange the conference with Mr. Carmichael as soon as possible.

## Two Drill Holes Tested At Hedley

Commissioner Fraser Says Assay Results of R. H. Stewart's Tests to Be Issued When Work Completed; Expected Week After Next

Canadian Press  
Vancouver, April 16.—Commissioner G. L. Fraser, investigating affairs of Hedley Amalgamated Gold Mines Ltd., for the British Columbia Government, said he would file a report of work accomplished at the Hedley property by R. H. Stewart, his technical adviser, within a day or two after Mr. Stewart's work is completed at the end of next week.

The statement read: "Mr. R. H. Stewart has furnished me with the complete assay results of Hole No. 7, the footings being

from 370 to 400 feet. It is Mr. Stewart's wish, and he believes it to be in the public's interest, that the assay results from this hole be not published until he has completed the diamond drilling tests on No. 3 Hole, where high assays were obtained both by the company and by Dr. Hedley.

COMPLETE REPORT  
"Work was commenced several days ago on No. 3 Hole and the results of the assays from it will be known by the end of next week. Mr. Stewart will then furnish me with a complete report of what has been done and within a day or two I will incorporate his report in my own and file the same immediately with the government."

"Mr. Stewart assures me that all work is being carried on as quickly as possible."

### Transportation Strike In Ohio

Akron Left Without Bus or Street Car Service In Sudden Walkout

Associated Press  
Akron, Ohio, April 16.—Bus drivers and street car operators staged a sudden walkout today and left 300,000 residents of Greater Akron without service.

A picket line formed around the buses and no cars or buses were available.

A spokesman for the Akron Transportation Company, with which the Amalgamated Electrical Railway, Street Car and Motor Coach Employees of America had been conducting negotiations, claimed the walkout had come without warning, although wage negotiations had been in progress for several weeks.

The idleness of between 250 and 300 men forced this northeastern Ohio industrial area entirely without warning to depend on taxicabs, private automobiles, or to walk.

Thousands trudged to work. Many persons were late. Taxicab companies reported they were unable to keep up with calls.

### Penticton Hears Connell's Views

Leader of Constructive Party and R. W. Bruhn Addresses Electors There

Canadian Press  
Penticton, B.C., April 16.—Rev. Robert Connell, leader of the Constructive Party in British Columbia, said in a campaign speech last night he believed refusal of some employers to allow their employees to organize gives Communism an opportunity to get a foothold in industry.

At a political meeting in this interior British Columbia town Mr. Connell said:

"Many firms in the province refuse the right to organize and you see the result in the newspapers."

"We must recognize the fact that employers are already organized in such groups as the Canadian Manufacturers' Association and employees should have the same right."

**LIQUOR CONTROL**

Mr. Connell stated control of liquor should be "taken out of the hands of the Attorney-General and put under a department of its own."

"My own personal opinion is that we will have no control over the liquor situation until the government takes over the breweries and the distilleries. It is a recognized fact that in most countries the trade, spelled with a capital 'T,' is an injurious influence in politics."

Mr. Connell said a highway commission would save the province millions of dollars, but that such a commission would never be set up under "the present system."

The Constructive leader referred to the \$3,000,000 loan recently floated by British Columbia in eastern Canada as "the most audacious thing ever committed by any government."

### Strike Clashes In Montreal

Five Arrested In Disorders In Women's Garment Workers' Walkout

Canadian Press  
Montreal, April 16.—Mild disorders broke out in Montreal's dressmakers' strike today, second day in the walkout of 5,000 men and women for more pay and union recognition.

Five arrests were made as police intercepted an attempt by pickets to keep workers out of a Mayor Street garment shop. Pickets were dragging women occupants out of an auto when officers arrived. Five strikers were arrested.

The International Ladies' Garment Workers' Union asserted the ranks of the strikers were swelling, and the Dress Manufacturers' Guild said the number of workers was double that of yesterday.

(Continued from Page 1)

adequate steps had been taken by the police to protect the public in the district.

He had already communicated with Ottawa, suggesting joint action by the two governments, and proposed a federal man be sent out to go into the question.

"This is a little bigger than a provincial affair," he said. "There are Doukhobors in Saskatchewan as well, and they have had trouble there. The arrest and conviction of those responsible for the outrages is only the first step. We want to find a permanent solution to prevent recurrence of these things."

Attending the conference with the Premier and the three Doukhobors were Col. J. H. McMullin, commissioner of B.C. police; Inspector John MacDonald of the Kootenay detachment; J. Pickett, interpreter, and Col. Eric Feller, deputy attorney-general.

Grand Forks, B.C., April 16 (Canadian Press).—Doukhobor threats of violence halted construction of Grand Forks new radio beam station today. Police took no action pending instructions from Dominion Government authorities.

The station, consisting of a building and four large aerial towers, was laid out over fifty acres, thirty acres of which were expropriated from Doukhobor owners in February. It is one of a chain of stations being constructed across Canada prior to commencement of regular trans-Canada air service as approved by the federal government at its last session.

Contract for the station and towers has been let to O. Quinstrom, Trail, B.C., contractor.

### Arrest After Police Chase

Canadian Press  
Vancouver, April 16.—Arrested after he had wrecked an automobile in a Kildonan residential district lane, Sydney Beatty, no fixed address, was charged with stealing a car.

The arrest followed an attempt by burglars to force their way into a drug store. As the thieves opened a door they set off a burglar alarm.

Police who answered the alarm saw a car pull away from in front of the store and gave chase. Beatty was arrested after the car had crashed and its driver started to run away.

as possible and as is consistent with a complete and thorough check of these two holes. It should be kept in mind that all cores taken from the diamond drill rods must be logged and catalogued carefully in order that their exact location may be known, and it is not possible nor practical to complete the work earlier than is being done."

Warsaw, April 16.—Polish newspapers defying an unofficial "request" not to print stories romantically linking the names of Chancellor Hitler of Germany and Pola Negri, Polish star of silent motion pictures, were suppressed by the government today.

No official order was issued, but newspapers were made to understand such reports were not wanted, and when the Kurjer Codzienny and the Agencja Agrarna persisted in reprinting such stories from British newspapers, the government acted.

### Strike Called On Southern Pacific

Martin, slight thirty-five-year-old former Baptist minister, gave his views regarding Premier Hepburn's opposition to international union leaders appearing in the strike picture.

### British Warship Stops Ship On Way to Bilbao

(Continued from Page 1)

Official insurgent advice said Moia was waiting only for the rains to end before launching the full force drive toward the Biscay coast.

The insurgent reports insisted an advance party had explored Durango, the barrier way sixteen miles south-east of the Basque capital on an improved highway. The detachment had met no resistance, it was said.

The Bilbao defence counsel broadcast that an insurgent infantry advance supported by planes was checked yesterday in the Durango sector.

Gen. Mola's army recaptured the strategic mountain peak of Sahi yesterday, leaving its slopes littered with the bodies of government dead.

The capture of the important mountain top in the barrier range south of Bilbao consolidated the insurgent vanguard positions only five miles from Durango.

**SHIPS TO BE EXAMINED**

London, April 16 (Associated Press).—Ships flying the United States flag in Spanish waters will be questioned by the non-intervention blockade patrol of Spain, officials of the neutrality committee disclosed today.

The patrol will verify the papers of all United States vessels, officials said, as a guard against the possibility of ships of other nations masquerading under the United States flag to run contraband to the Spanish combatants.

The international blockade of the Spanish coasts has been ordered to start at midnight Monday, April 19.

Paris, April 16 (Canadian Press from Havre).—Reports of a movement in London for eventual mediation in the Spanish war were received with skepticism by political circles here today. These quarters regarded such a plan as premature in the light of the present situation in Spain.

Brother of R. L. Maitland, K.C., Was Business Man In Vancouver

Canadian Press  
Vancouver, April 16.—R. M. Maitland, fifty, pioneer Vancouver business man and brother of R. L. "Pat" Maitland, K.C., died here last night following a short illness.

Born in Grimsby, Ont., he came to Vancouver with his parents as a child in 1890. After receiving his education here he joined the staff of the Royal Bank of Canada in 1902, and a year later was appointed to the staff of the real estate firm of McCaulay and Nicholls. In 1920 he was made a director of the firm and the name was changed to McCaulay, Nicholls and Maitland. He held his executive position until his death.

A keen sportsman, Mr. Maitland was a charter member of the Royal Vancouver Yacht Club and was commodore of the club in 1924, when he engaged in many racing sloop regattas for the club.

Mrs. A. Cameron of Montreal is a daughter. The widow, three sons and another daughter reside here.

### Strikers Approve Settlement Plan

Vancouver Burns Employees Accept Arbitrator's Proposal; Company to Decide

Canadian Press  
Vancouver, April 16.—Striking employees of Burns and Company's Vancouver packing plant today approved Judge J. C. McIntosh's suggested settlement of the sixteen-week-old labor dispute and a company official said the scheme would be submitted shortly to a directors' meeting in Calgary.

Judge McIntosh, appointed as commissioner by the British Columbia Government to investigate the strike under the Public Inquiries Act, in a report released yesterday by Provincial Labor Minister George Pearson, called for reinstatement of 131 of the company employees now on strike. Nine dismissed for inefficiency would not be taken back.

The Burns employees struck December 29 last, charging the company had showed discrimination against their association, the Meat Cutters' and Packing Plant Employees' Union, when it discharged nineteen men, allegedly for inefficiency. The plant operated several days with skeleton crews, then men were hired to take the place of the strikers.

popping off around the fringe of the Oshawa strike.

Of Oshawa Mayor Alex Hall's statement he would like to give the Premier a thrashing for saying Mr. Hall owes the province money, Mr. Hepburn said:

"I have no desire to enter the lightweight class."

The Premier weighs 187, and Mayor Hall about 135.

Mr. Hepburn also had a word for conflicting statements on arrangements between the Ontario and Dominion governments for police protection. It was:

"There are too D—many lies going around."

**INSTRUCTED TO COLLECT**

—Claiming Mayor Alex Hall owed the provincial treasury \$269.25 when he was dismissed as Oshawa crown attorney in 1934, Premier Hepburn has instructed Col. W. W. Denison, inspector of legal offices, to recover that amount from the mayor or his bonding company.

The Premier last night alleged that Mayor Hall's "hostile attitude toward the government in the present difficult General Motors strike situation was due to his dismissal and to his general antipathy to the Liberal Party."

### Fernie Relief Strikers Quiet

Unemployed, In Funds Walk-out, Calmly Receive Government's Ultimatum

Canadian Press  
Fernie, B.C., April 16.—Fernie's unemployed, on strike since Monday in their fight for higher cash allowances for work on British Columbia Government and civil relief projects, received calmly Victoria's "no work, no relief" announcement today.

Officials of the Fernie Unemployed Association, the relief workers' organization, made no comment.

Meanwhile, pickets posted at the provincial and civil relief yards had nothing to do as their fellows held strictly to their strike decision made last Saturday at a mass meeting here. No violence has been reported during the week.

While local government officials will not supply figures regarding the amounts distributed here in relief allowances, reliable estimates place the sum at well over \$250,000. For the first quarter of this year, that rate was apparently maintained.

### Hope To Settle Mine Dispute

Canadian Press  
Fernie, B.C., April 16.—Coal miners in southeastern British Columbia went to work as usual today while representatives of their employers and their union conferred with a federal government official in an effort to settle the labor dispute which for two weeks has threatened to halt operations in Michel and Coal Creek collieries.

Conference sources said "continued progress" was being made at the sessions, but that it was "impossible to predict the final outcome until 'certain controversial matters are adjusted.'"

The sources did not say what matters were causing controversy.

### Parties To Have Joint Nominee

C.C.F. and Social Constructives Get Together In Delta Riding

Richmond, B.C., April 16.—The Co-operative Commonwealth Federation and Social Constructive parties in the Delta riding may run one candidate suitable to both parties in the coming British Columbia election.

At a meeting of the two political bodies here last night it was decided to hold a joint meeting at Langley, April 21, to choose a candidate to represent both parties.

**COMMUNIST NAMED**

Canadian Press  
New Westminster, April 16.—The New Westminster section of the Communist Party of British Columbia has formally named Rev. Edwin Baker, former Co-operative Commonwealth Federation candidate here, to contest the New Westminster riding in the June 1 provincial election.

Mr. Baker, who was a C.C.F. candidate in New Westminster in the 1935 federal election, recently left that party because, he said, its platform was not radical enough, and that it would not support a "united front" with the Communists. Prior to his withdrawal, he was a member of the C.C.F. provincial council.

NEW EXPLOSIVES PLANT  
Melbourne, April 16 (Canadian Press-Havas).—Sir Lennor Rawe, vice-president of Imperial Chemical Industries of Australia and New Zealand, yesterday announced his company had signed an agreement with the Aus-

tralian government providing for establishment of an explosives plant here, capitalized at £300,000 (\$1,470,000).  
The Fiji Islands include about 1,000 islands, some very small.

## Anti-lynching Measure In U.S.

Bill Providing Penalties for Negligent Sheriffs and Police Passed By House and Sent to Senate

Associated Press

Washington, April 16.—Congressional leaders predicted today the first anti-lynching bill to pass the United States House of Representatives in fifteen years would encounter greater opposition in the Senate.

Pilgrimage have killed every previous attempt to win Senate approval of such legislation.

Even as the House adopted the Gavagan bill late yesterday 277 to 119, Senator Borah, Republican, Idaho, criticized what he called an effort to "force through Congress an unjust, unconstitutional and, in my opinion, an immoral measure."

Southern Senators were preparing to oppose the measure, forecasting warm sectional debate.

The Gavagan bill as passed by the House would authorize the federal government to intervene in mob crimes to punish participants and negligent officers.

The measure would subject an officer who permitted a prisoner to be taken from his custody and injured or put to death, to a fine ranging up to \$5,000 and to as much as five years in prison.

Participants would be subject to from five to twenty-five years' imprisonment.

Opponents from the south sought in vain to strike from the bill provisions that would subject counties in which a prisoner was seized or put to death to damages ranging from \$2,000 to \$10,000, the money going to the victim's family.

### Police Budget Is Reduced By \$700

An additional cut of \$700 was made in the City Police Commission budget yesterday when it was decided that the department would purchase only one new car this year instead of the two originally intended.

This new reduction cut the estimates from \$103,972 to 103,272. After considering the request of the City Council that further economy might be effected in the appropriation of \$2,200 for keep of prisoners, the commission felt this figure could not be reduced further. Appointment of Acting Sergeant J. H. Petterson to full sergeant, commencing May 1, was announced at the meeting.

## LUENDORFF CELEBRATES

Munich, Germany, April 16 (Canadian Press).—Gen. Erich Ludendorff yesterday celebrated the fifty-fifth anniversary of his entering the German army, but his refusal to have a military parade gave rise to talk of his grievances against the Nazi regime had not been settled.

## RUNCIMAN IN CABINET SWING

President of British Board of Trade May Be Chancellor of Exchequer

London, April 16.—Rt. Hon. Walter Runciman, President of the Board of Trade, hinted at the possibility of his leaving his cabinet post when he addressed a dinner of the Association of Chambers of Commerce yesterday evening.

He had been president of the board for a long time than any of his predecessors, he said, adding "I do not know how much longer I shall be in this office."

Mr. Runciman's name, among others, has repeatedly been coupled with the Chancellorship of the Exchequer in the cabinet reorganization that will follow the expected resignation of Prime Minister Baldwin next month. The present head of the treasury, Rt. Hon. Neville Chamberlain, is slated for the premiership, most political authorities agree.

In his address Mr. Runciman urged cultivation of foreign trade. He emphasized when Britain's activity through the rearmament programme was ended she would have to concentrate on business connections both at home and abroad.

Now sixty-six, Mr. Runciman has been President of the Board of Trade since 1931. He is one of the small group of Liberals that entered the National Government created that year.

Eventually Mr. Runciman must lose his seat in the House of Commons. His father, the first Baron Runciman, a veteran shipowner and builder, is ninety. On his death the son will succeed to the title and enter the House of Lords.

## MASSEY SPEAKS

Hon. Vincent Massey, Canadian High Commissioner, speaking briefly at the dinner, said the 1932 Ottawa agreements had given promise of stability because they met with almost uniform cordiality. The agreements were also important from the standpoint of the volume of trade affected.

### Plan Resurvey Of Ladysmith

Ladysmith, April 16.—Uncertainty as to the exact lines delimiting and marking lots within the city will be permanently removed, the council decided in engaging A. G. King, land surveyor, to resurvey the city, and supervise the placing of six concrete markers at various points. These monuments will be placed at Symonds, High and Methuen Streets on First Avenue and on the same streets at Fourth Avenue.

Efforts to discover a satisfactory basis for the sale of city lots is still in progress. Mayor Walkem submitted a list covering 184 lots held by the city, revised below the assessment level to sale.

The recommendation of the committee is that the full sale price of the lot be charged and that a 50 per cent rebate of the price be made to the purchaser, if the terms of the building agreement—\$750 improvements within the year—are complied with.

These efforts are motivated by the council's desire to encourage building and prevent speculation while the present development continues. Final ratification of the committee's recommendation was deferred until the next meeting, although interim sales will be conducted on the proposed basis.

### "MISERY— BY DAY AND BY NIGHT!"

"MY Asthma started with a cold—the cough hung on and returned persistently. The wheezing, choking and gasping spasms made my life utterly miserable. I was completely run-down and wondered if I'd ever be well again. Thanks to Fellows' Syrup, I've shaken off the trouble. 'Fellows' checked the cough and, before I knew it, I felt fit and strong. My Doctor says if I stick to 'Fellows' I won't need to fear coughs or colds this winter."

Fellows' Syrup supplies your system with the mineral elements needed to increase strength and vigour and to help build resistance to illness. Avoid imitations. Ask for Fellows' Syrup and look for the name "FELLOWS" on the wrapper. Two sizes — at your drugist's.

## Charge Quebec Mine "Salted"

Quebec Assistant Attorney-General Recommends Proceedings In Rubec Case

Canadian Press

Quebec, April 16.—Recommendation proceedings be taken against the person responsible for "salting" of assay ores from the property of Rubec Mines Limited, in northern Quebec, was contained in a statement made public yesterday evening by Edouard Asselin, Assistant Attorney-General of Quebec.

The report, based on an inquiry by W. Amyot, registrar of the Quebec Securities Act, upheld a claim by J. M. Godfrey, Ontario Securities Commissioner, that assay samples had been salted.

Mr. Amyot, in the report, said considerable proof had been gathered to "definitely conclude" the responsibility of one person in particular for the falsification. But he believed the person should not be named in the report because the publicity would enable him to escape before being arrested.

SINCE JULY 1936

The report, compiled from findings made by Paul d'Aragon, Montreal engineer, and Provincial Geologist L. V. Bell, charged salting of diamond drillings had been practiced since operations opened at the company property in July, 1936.

Not only did the Quebec report confirm the charges by Mr. Godfrey that drill holes 15, 18 and 19 had been salted, but Mr. d'Aragon claimed similar salting had been done to samples from holes 1, 3, 4 and 5.

### AUTHORS HEAR TWO SPEAKERS

The life and work of John Masfield and the history of the post of poet laureate were related to the Victoria Branch, Canadian Authors' Association, by Mrs. D. M. Duncan at a meeting yesterday evening in the Women's Institute Rooms.

The choice of Masfield for the position was wise and popular, Mrs. Duncan said, because Masfield, writing of ordinary persons and finding the beauty in ordinary things, brought poetry to the greatest body of the reading public.

Masfield had revived the long narrative poems which were essential to English literature, Mrs. Duncan said. Besides his work as a poet, he was busily engaged in writing dramas, reviews and novels.

Miss Dorothy Crighton gave a craft talk on "Furnishing the Children's House of Books" at the meeting, in which she said that children's books, to be successful, had to be up to library standards.

Miss Fraser paid tribute to the late Margie Pickett, in tradition of the April meeting of the association.

Miss Sheila Conway sang two solos, accompanied by Miss Audrey St. Denis Wood. Mrs. Ebbes-Canavan expressed the appreciation of the Authors' Association for the work done in the dramatic field by Major Bullock-Webster. Miss Eugenie Perry was in the chair.

### School Holds Speedy Drill

Students of Cloverdale School this week at an excellent fire drill for municipal officials when they vacated the school in a minute and a half after the alarm was rung.

The first of the officials, including Councillors E. C. Warren and John Watson and A. R. F. Sewell, deputy fire marshal, was in the nature of a surprise to both students and the fire department.

The fire department responded within two and a half minutes of the alarm being turned in. The first hose was up two minutes later and in another three and a half minutes the ladders and a second line of hose were out.

### Mock Trial At Rotary Lunch

A half-hour of amusement coupled with a lesson in the duties of Rotary officers and committee chairmen was offered to the Victoria club at its luncheon yesterday in the form of a mock trial.

Six members of the club were sentenced by Judge Frank J. Sehl to hard labor in the club's interests for the remainder of their Rotary lives on charges of shiftness, ineffectiveness, scheming, gross negligence, stupidity and sundry other charges in the conduct of the Rotary Club of Alburton and Alburton.

Thomas J. Goodlake, K.C., prosecuted, on behalf of Rotary International. Jack A. Mackay appeared for the defence, R. P. Malone was the clerk of the court, administering the oath in the name of "all that's good, bad or indifferent, so help you Johnny Johnson."

The six delinquents, who played the parts of the president and secretary and chairmen of the fellowship, attendance, classification and programme committees of the mythical club were: S. M. Armstrong, J. E. Doe, M. L. Greene, Colonel H. E. Goodman, W. J. Fletcher and Arthur H. Kerr.

Charles L. Bosdet and Lieut.-Colonel F. O. St. John were elected members of the club. President Frank I. Doherty was in the chair.

## What Is An Independent?

FROM SALMON ARM COMES THE news that former Minister of Public Works Rolf Bruhn in the Conservative government of Hon. Dr. Tolmie has made up his mind to run in the provincial general election as an Independent. He is touring the interior of the province with the Rev. Robert Connell, leader of the Social Constructive Party.

We have yet to learn just what is meant by the term "Social Constructive Party." A most admirable citizen—a scholar and a gentleman—is Mr. Connell. He is very near to Nature. He writes of the things so far away and ahead of political matters that one wonders why he bothers with politics.

That, of course, is a matter which Mr. Connell himself has to ponder. What the former Minister of Public Works in the late Conservative government of British Columbia, however, has to decide, is the line he proposes to take in the forthcoming election campaign.

Mr. Rolf Bruhn, from now on, we presume, is in the field, so to speak, as an Independent. And what is an Independent in terms of politics or public service?

## Good Advertising

THE VICTORIA GOLF CLUB'S proposal that there ought to be another meeting of experts of the royal and ancient pastime in Victoria this August—as part of the jubilee celebrations of British Columbia's capital city—is warmly to be commended.

Last year, dubs and pseudo-experts got the thrill of their golfing life as they watched such brilliant players as Lawson Little, Ralph Guldahl, Byron Nelson—but by no means forgetting that master stylist, perhaps, only a wee bit behind the late Harry Vardon, Scot MacDonald Smith—and it is hoped that many professional and amateur golfers will be attracted here about the middle of August.

But, of course, it requires money to induce men and women who are engaged in any form of sport to display their wares. Traveling expense is no small item. So if Victoria is to repeat last year's successful golf pilgrimage, there will have to be some monetary contribution.

Our suggestion is that the City Council take stock of the publicity value—the return in dollars and cents—of an investment in the proposal to which we have referred.

## Medicine Man's Results

PHYSICIANS AND LAYMEN ALIKE in this age of science are generally scornful of the medicine man, with doctor or shaman of primitive society. Yet the record of "cures" of the medicine man puts the modern scientific physician to shame, it is pointed out in the current bulletin of the Associates in the Science of Society at Yale University.

The medicine man was a creature of superstition, but he got results. He cured his patients. "Careful examination of the cases," says the bulletin, "gives the distinct impression that the shaman's record of cures was, if anything, better than that of the modern physician."

The explanation of this apparent paradox is simple. The shaman or medicine man almost never had to deal with the incurable, degenerative diseases that the modern physician treats. Cancer, heart disease, hardening of the arteries are the chief causes of death today, but these diseases do not appear until middle or old age. In primitive society very few people live long enough to be afflicted with these conditions. Primitive man is or was usually killed in warfare or by accident in the prime of his life.

The medicine man rarely saw a case of cancer or hardening of the arteries, and he rarely attended childbirth. Deaths of infants and mothers in childbirth, consequently, are not charged up against him as they are against the modern physician. Communicable diseases, such as yellow fever, bubonic plague and even influenza, were not generally a problem for the primitive medicine man. Communicable diseases are spread by travel, and primitive man did not travel much compared with modern man.

The medicine man's big success was due to the twin facts that he dealt largely with social or psychological problems and that he was peculiarly well equipped to deal with just such problems and the ailments that arise from them. He used the terms of witchcraft instead of psychiatry and psychoanalysis, but he knew his patients and their background, he had insight into their problems, and he had their complete confidence. Insight and the confidence of the patient are still necessary in the practice of scientific psychiatry, and the modern psychiatrist by psychoanalysis and other means seeks to gain the detailed knowledge of patient and his background that the medicine man had as part of his equipment. In this last respect, it is pointed out, the medicine man of primitive society enjoyed an important advantage over the family physician.

## British Capital For Canada

IN VIEW OF STATEMENTS IN LONDON that the investment of British capital in the United States might be subject to some restriction, there is some discussion as to the possibility of more substantial investment of British funds in Canada. In his annual address

to shareholders of the Bank of Canada, the Governor (Mr. Graham Ford Towers) is reported to have stated that an estimated total of \$145,000,000 of external indebtedness had recently been repatriated from Canada, a record which he viewed as favorable. He added, however, "I think we should guard against repatriation on a scale, or at a speed, which over-estimates the powers of absorption of our bond market, or imposes a strain on the Canadian dollar."

Of the latter development there is as yet no sign, but there are indications of some congestion in the market for securities. It was believed that an increase in the British demand for Canadian securities might tend to relieve any possible tendency to congestion on the financial markets in Canada.

Figures for 1936, recently released by the Dominion Bureau of Statistics, show sales of Canadian securities to British investors totaled \$71,788,317, compared with a 1935 figure of \$30,991,264. Canadian purchases of British securities totaled \$59,695,125, compared with \$44,125,493. There was no information available to indicate the classes of securities preferred by British investors.

## Aberhartism

ALBERTA SEEMS TO BE HAVING a difficult time with its Social Credit business. An SOS call has gone out to Major Douglas, described as the "father of Social Credit," to cross the Atlantic and come to the aid of Premier Aberhart.

What Alberta does, of course, is Alberta's own business. But what is the idea of a thriving province seeking a financial system which, apparently, nobody understands?

Major Douglas addressed a dinner meeting held in his honor by the provincial government in Victoria a year or so ago. Newspapersmen, of course, know nothing about finance; but newspapersmen present at that affair had the satisfaction of knowing that at the conclusion of Major Douglas's remarks they knew as much about Social Credit as those trained in the art of political and financial thought.

What the ordinary individual, the individual who has the capacity to think, cannot grasp is how the ordinary Albertan thinks he or she is going to benefit by the new-fangled Aberhartian financial system.

Mr. Aberhart is not a financial wizard who is able to touch a magic wand to start the flow of good Canadian currency from the heavens. All the Social Credit dividends he has promised to distribute must be provided by the citizens of Alberta.

If we may be permitted the vulgarism—the people of Alberta, when they elected the Social Credit government, merely "kidded" themselves.

## Stonehenge Explained?

WHEN STONE AGE MAN AND HIS wife in Britain went to worship at the famed place called Stonehenge, they may have had comfortable seats indoors. In other words, the great stone circle of ruins, now one of England's prize mysteries, may once have been a covered temple.

Visitors at Stonehenge gaze up at the sixteen-foot stones that outline a great circle. They point out the inner circle and horseshoe of stones, and the altar-like arrangement of stones within. In their minds, they conjure up a picture of Stone Age Britons gathering in the open air by moonlight or at sunrise for strange, barbaric rites of worship.

But that prevailing picture is wrong, according to a theory advanced by Prof. A. Vayson de Pradenne of the University of Paris, in the British archaeological journal *Antiquity*. The prehistoric builders constructed a roof and walls of massive beams and earthen plaster over the stonework skeleton, he believes. To see what the building was like, we have only to look at a North American Indian earth lodge, in the Great Plains region. Even the plan and proportions of Stonehenge bear striking resemblance to an Indian meeting house, save for the stone framework.

Technical difficulties of roofing a building 108 feet in diameter would not baffle early Britons who could move forty-ton boulders. So argues Prof. de Pradenne. Beams less than thirty feet long would have been big enough to use. A turf covering for the roof was probably added, he explains. And the completed structure would serve to keep dry the sacred objects, and the priests who must perform their duties in a climate that was even rainier than England today.

That Stonehenge was a place of worship seems logical to Prof. de Pradenne. But whether it was a meeting house, tomb, or dwelling, he believes wood and stone were combined to make a roofed structure. He suggests that other prehistoric ruins of giant stone may well be examined closely, to see whether they are not mere skeletons of larger structures once built with wood.

## Notes

Apparently the best lubricant to reduce friction in our modern industrial machinery is still dough.

We never despair of mankind until we figure up the cost of telling the world what Mrs. Simpson is wearing.

Great corporations should be able to win public sympathy. A lot of their stock is held by widows and orphans.

When we look over some of the London newspapers with the largest circulations, we are not surprised that so many persons in England think this continent a queer place inhabited by queer people. About all the news gathers for these London newspapers ever seem to take from this continent are market reports, Hollywood news, freak and faked stories and scandal. Our attention has just been drawn to an issue of one of these papers which features a story of a Vancouver Island girl who has been living for years alone with a baboon!

## Column Three

### AS IF FOLKS LIVED IN WINNIPEG BECAUSE THEY LIKED IT

Editorial in The Winnipeg Tribune

Bruce Hutchison, whose duties as legislative reporter require him to try to keep awake part of the time in Victoria, B.C., recently passed through Winnipeg.

Mr. Hutchison found Winnipeg houses and offices too warm—which is not surprising, considering the way people shiver, particularly when they are indoors, in sunny Victoria. Many a prairie dweller has returned from that alleged paradise saying "I never was as cold in my life."

Possibly the real reason for the somnolence, lack of ambition and self-complacency of the dwellers in Canada's Lotus Land is that they use so much bodily energy in chills that they have little left over for anything else. Seeing the shopkeepers stumble down the main streets of Victoria to open their stores at 10 o'clock in the morning may make the visitor envy the leisurely life at first, but after he has spent a few nights between damp sheets and treated himself copiously for chilblains and gooseflesh, he begins to realize that Victoria shopkeepers have to wait until the sun is in mid-heaven before they can move at all.

## SHOULD SOLDIERS FIGHT OR RUN?

To the Editor:—Bravo, Marchese D'Urbanol But the Marchese in his letter does The Times an injustice. You don't believe that the Italian soldiers are lacking in courage, do you? Down deep in your heart you know that they not only have courage (do you know that a soldier needs more courage to refuse to fight than merely to obey orders: sure you do), but have also a mentally far superior to the Englishman. Then, knowing this, why refer to "Caporetto"? Very simple.

It is of vital importance to Mr. Baldwin that the Loyalists lose the civil war. But Mr. Baldwin is much too wise to come out in the open as Il Duce and Hitler are doing. He "yes-yeses" his people to their faces, shouts "democracy" until he is black in the face. Then the moment their backs are turned he thumbs his nose at them and quietly hands out money to Mussolini and Hitler to carry on their slaughter. The worst thing that could happen to Mr. Baldwin's plans is for the Italian soldiers, instead of aiding the rebels, simply to refuse to fight. Therefore, by calling them "cowards" and "greatest runners in the world," you intend to increase their blood-pressure and thus dull their reasoning power. This will make them "show you" that they are not afraid to fight. Perhaps you will succeed.

But the time is not far off when it will take more than the word "coward" to make a soldier fight. The time is now coming when a soldier will want and demand to know what he is fighting for, no matter what nationality.

The Loyalists know what they are fighting for. That is why they have been able to hold out so long against the combined cruelty of Hitler and Mussolini, and the far, far worse duplicity and hypocrisy of Baldwin. It is true that history repeats itself and did you ever read about Caesar's conquest of Britain?

## NO LIBRARY AID FOR SAANICH RESIDENTS WHO SEEK CULTURE

To the Editor:—"Taxpayer for Many Years," who asks the other Saanich taxpayers think on this question. The desire for better educational facilities prompted us to leave our farm eighty miles north of Peace River town and buy thirty acres here on which to build a winter home, to enjoy all the cultural facilities of an advanced civilization and an up-to-date progressive community. What was our deep disappointment to find too late that Saanich was in the peculiar position of being barred from all the Dominion libraries.

In the wilds of the Peace River the serious reading requirements were looked after by the University Extension library at Edmonton, which sends out books to pioneer districts. But those who thirst for knowledge in Saanich are in the provoking position of seeing the riches of literature stored in the splendid Carnegie endowed library at Victoria, one of if not the finest and most progressive library in the Dominion and having to grope for the resources of that magnificent library.

There must be many residents of Saanich who, like me, are attending the night or technical school or studying engineering, mechanics, building, decorating, plumbing, farm improvement, domestic economy, literature or any of the arts and crafts, and find their studies very much hampered by the lack of this type of library. The lending libraries have not the same resources and mostly provide light fiction for pastime reading.

It is perfectly reasonable that "Taxpayer" should object to any increase of the already too heavy taxation. Personally I would welcome a scheme which would allow those who do need the study facilities of the library to pay for them. I have offered a donation, a subscription and even to buy a small lot in the town and pay taxes on it, if the bar against the residents of Saanich having the same rights as even the non-taxpaying transient visitors to Victoria even to borrow books from the library might be lifted against me. But as a resident of Saanich it appears I must not have the educational advantages enjoyed by the residents of every other part of Canada, even of the wilds.

"Taxpayer" has already upon her shoulders the burden of the relief grants for those who have to be provided for out of their neighbor's taxes. Is there not some wisdom in those words of Mr. Carnegie which are posted in the library he helped to endow, to the effect that in giving good books to people you do more for them than by giving them money, since to acquire the wisdom that lies in good books, and the prosperity that follows upon wisdom, a man must work to read and study, and therefore he is not lowered by the gift, but lifted up and helped on to be a better-equipped and more capable Canadian.

## THE CHURCHYARD

(St. Luke's, Cedar Hill Cross Road, Victoria, B.C.)

Beneath the lee of the rocky hill,  
And wide, blue, spreading skies,  
Where stands the sacred house of God,  
The quiet churchyard lies.

Tall poplars sway in the evening breeze,  
Dark firs their vigils keep,  
Old oaks stretch loving arms above  
The homes of these that sleep.

Upon the hill a cloth of gold  
The gorse and broom have spread,  
And fragrant flowers make sweet and glad  
This garden of the dead.

They are not far—so to us they come  
From brighter realms above,  
On errands great their spirits speed,  
Fulfilling perfect love.

We hear them in the gentle wind,  
We find them in the flowers,  
We know them when in hope they speak  
Within these hearts of ours.

Love knows no death, nor age, nor time,  
No grave, nor passing bell;  
We in their hearts, and they in ours,  
Remembered, ever dwell.

—ALLEORA.

Corrected sentence: "I know Henry was awake nearly all night," said the wife, "but he didn't mention it this morning."

## For Forty Cents

From a Letter to The London Times

May I give an account of a specimen meal eaten at Rovaniemi, North Finland, but which can be equaled in Sweden, both in price and quality? First, I would excuse myself by saying that as I ate only twice a day, and often, in between meals, cycled nearly 100 miles, I developed an appetite of gigantic proportions! I am ignorant of the French or Finnish equivalents, but here is the list taken from my diary.

1. Salted, uncooked herring. 2. Salted, uncooked salmon. 3. Some cold fried fish, a little paler in color than salmon. 4. Some pickled fish about the size of a pickard. 5. Cold boiled salmon. 6. A kind of hot wiener schnitzel with peas. 7. Cold roast reindeer meat. 8. Slices of pilot, rather like haislette. 9. Slices of a large sausage. With the meat dishes were eaten slices of hard-boiled eggs, fresh tomatoes and a kind of rich mayonnaise, in which were chopped carrots and other vegetables. 10. Two helpings of cold pan-cakes with stewed fruit like bilberries. 11. Biscuits and cheese. This was accompanied by six glasses of milk, which men drink everywhere in Scandinavia, and finished off with coffee.

I would mention that in addition there were the following dishes available, but which on this occasion I did not require: Four other kinds of fish and cold ham, brawn, pickled pork, liver sausage and a mixture of chopped meat, beetroot and other vegetables, all to be eaten, if desired, with potatoes in their skins. The modest charge for this meal was 6½d.

## "NO SUBSTITUTE FOR IMMIGRATION"

To the Editor:—The Toronto Globe

and Mail, March 22, deals with the immigration issue, and says: "Admitting these conditions they do not constitute a denial of the need for more people here and in the other Dominions. If we in Canada have learned anything from the drought and depression, it is that agriculture would not have been so completely paralyzed if we had had a broader consuming and more diversified producing base. We realize that the social and economic progress of this country, shackled by debt, will be not only retarded but rigidly restricted unless the population is greatly increased and the taxing base enlarged proportionately during the next twenty-five years. . . . Undeniably the west has suffered from extravagant and faulty settlement schemes and from poor settlers. That is only half the answer. The other half is that settlement . . . stopped too soon."

Recently The London Times summarized the outlook of Empire settlement in this way: "The day when the economic life of the Dominions will again enter upon a phase of expansion is certain to come. Our business is to make ready for it so that those who answer the call for more labor shall not be mere pawns in the economic game, but shall be in a position to turn the new opportunities to proper account in their own lives."

The Globe and Mail takes the position that there is a fresh basis for co-operation and "any number of sound, indisputable reasons, political and economic, as to why we must reorientate our views to include a settlement scheme. . . . The experience of previous schemes mark the pitfalls. We know immigration and development must go hand in hand. We know our settlers must be readily assimilable, and we know they must be preponderantly British."

ROBERT D. HARVEY.

## WHY CHILDREN REFUSE TO SALUTE FLAG

To the Editor:—The reason why a dozen children at Quarryville, N.B., have refused to salute the flag is because the flag is an image or representation of the nation, and to salute an image is a violation of the divine command as stated at Exodus xx, 3-5. When one salutes a flag it means that one looks to what the flag represents for protection and salvation. True Christians look to Jehovah God and Christ Jesus for protection and salvation. All laws of the state that are not in conflict with God's law are gladly obeyed by those devoted to Jehovah God. When the law of man is in conflict with God's law, the Christian cannot obey that law of man. The children of Jehovah's Witnesses at Quarryville find themselves in the same position as the three Hebrew children who refused to obey the commandment of the king to fall down and worship the image, (Daniel, third chapter.) No person should be compelled to violate his conscience.

To force children of true citizens to salute any object or thing is entirely wrong. The refusal to salute a flag should injure no one. Laws made and enforced to prevent the commission of overt acts that result in injury to another, and are not made for the purpose of compelling anyone to violate his conscience.

An editor of a leading daily recently wrote: "To compel a child to salute a flag is an insult to the flag." It is impossible to install patriotism by compulsion. If anyone desires to salute a flag that is his privilege and no one has a right to say he shall not salute it, but to compel people to salute is wrong, particularly if they believe it is in violation of God's specific command. Jehovah's Witnesses are entirely devoted to Jehovah God, and have as their purpose the proclaiming of His kingdom, which message the clergymen have failed to give to the people.

## Lt.-Governor Leaves For England

Investiture By King Among His Engagements

His Honor the Lieutenant-Governor and Mrs. E. W. Hamber left Vancouver last night on the first stage of their journey to London to attend the Coronation ceremonies. They were accompanied by Mrs. John Hendry, mother of Mrs. Hamber, Mrs. Mae Rice, Mrs. Hamber's personal secretary, and Mr. A. M. D. Fairbairn. Their first stop will be in Toronto on Monday, where they will be guests for three days of His Honor the Lieutenant-Governor of Ontario and Mrs. Herbert A. Bruce at Ontario's Government House in Rosedale. A dinner at Government House will honor Mr. and Mrs. Hamber their first evening in Toronto, while the following afternoon they will be feted at a cocktail party, at which Mr. Clarence Bopert will be host prior to the dinner being given for the distinguished visitors by Mr. and Mrs. Dudley Dawson, formerly of Vancouver.

Wednesday night of next week, Major-General and Mrs. Hogarth will entertain at dinner, honoring Mr. and Mrs. Hamber, who entrain at midnight for Ottawa, there to be guests for two days of Their Excellencies the Governor General and Lady Tweedsmuir at Rideau Hall. Mrs. Hendry, Mrs. Rice and Mr. Fairbairn will be guests at the Royal York Hotel while in Toronto and to Ottawa will stay at the Chateau Laurier.

While in Toronto, His Honor will attend a Dominion Bank meeting next Tuesday morning, later being honor guest at a Dominion Bank luncheon. The following day he will be present at a meeting of the National Life Assurance Company, and have luncheon with the president, Mr. Bain, at the York Club.

WHILE IN ENGLAND  
A few highlights of the gubernatorial itinerary in England, where the party arrives May 1 and will be in residence at the Mayfair Hotel London, include the Canada Club's Coronation Dinner at the Hotel Savoy the night of May 4, and the formal reception and ball at which the Royal Empire Society will honor Mr. and Mrs. Hamber the Friday of May 7, at British Columbia House on Regent Street.

Coronation Day, His Honor and Mrs. Hamber will occupy seats reserved for them in Westminster Abbey, their party members witnessing the procession from the British Columbia House stand.

Mr. and Mrs. Hamber have been requested to attend the noonday inaugural service of St. Mary Woolton Church, May 18, and that afternoon to be present at a service in St. Peter's Church, Richmond.

TO RECEIVE ORDER  
Tuesday, May 25—British Columbia's Lieutenant-Governor will be invested with the Order of St. John by the King at an impressive ceremony in Buckingham Palace.

Mr. and Mrs. Hamber plan to attend the Derby at Epsom Downs on June 2.

## Y.W.C.A. Class Get Their Diplomas

Household Training Closed With Ceremony Tea

Another worthwhile community service by the Y.W.C.A. came to a climax yesterday afternoon when the Household Training Class, conducted jointly by the "Y" and the home economics branch of the Provincial Department of Education, held their closing exercises.

Mrs. John Baxter presided and welcomed the guests and briefly reviewed the progress of the household training scheme from its inception four years ago, paying tribute to the provincial authorities for their splendid co-operation in this valuable training.

Miss J. L. McLennan called the roll of those who had passed and Mrs. S. J. Willis presented the diplomas to the following: Ailsa Bishop, Winona Booth, Alice Burton, Winona Chalmers, Verna Henry, Marion Lineskill, Grace Loat, Betty Mathews, Beverly McKenzie, Irene Cebby, June Southam, Muriel Turner and Emily Volant.

Mrs. M. C. Foulds of the B.C. Electric Company presented three prizes to those who had made highest marks in the use of electric appliances. Betty Mathews, Verna Henry and Winona Chalmers.

Dr. D. L. MacLaurin, assistant superintendent of education, addressed the graduates, emphasizing the importance of the art of home-making. A presentation was made by the class to Miss Esther Latimer, their teacher, in appreciation of her invaluable instruction and sympathetic interest in each member of the class.

Mrs. Rex Eaton, Vancouver, was invited to say a few words to the girls, and warmly congratulated them upon their success.

Tea was served in the lounge, the members of the class having prepared the dainties and arranged the attractive table, which had a centrepiece of daffodils. Mrs. H. M. Cassidy and Mrs. John Baxter poured tea.

Among the guests were members of the household training committee, the hostesses among whom the girls had done field work, the mothers and friends of the graduates, and also those who had given talks on various subjects during the course.

## Weddings

KING-STEWART  
The marriage is announced of Miss Margaret Elizabeth Stewart, eldest daughter of Mr. and Mrs. J. A. Stewart, 621 Seaford Street, Victoria, to Earl Francis King, only son of Mr. and Mrs. Harold Selkirk King, of Quesnel.

The wedding which took place in Quesnel at the First United Church was performed by Rev. E. Fullerton. After a visit in Victoria, Mr. and Mrs. King will reside in Quesnel.

Out-of-town guests were Mr. and Mrs. J. A. Stewart of Victoria.

## Toronto Stork Derby Appeal

Canadian Press  
Toronto, April 16.—Chief Justice Newton W. Rowell yesterday granted a postponement until Monday of an appeal against the judgment of the Ontario Court of Appeal declaring the "baby clause" in the Charles Vance Miller will valid. The appeal was brought by Arabella West and Alexander Butcher, Port Burwell, Ont., relatives of the eccentric Toronto lawyer who left \$500,000 to the Toronto mother bearing the most children in the ten years following his death.

Baptist Women's Union—The Women's Union of the First Baptist Church will hold their regular monthly meeting in the church parlor Monday evening, April 19, at 8 o'clock. A cordial invitation is extended to the ladies of the Emmanuel Baptist Church, the Douglas Street Baptist Church, the Second-mile Club and the Tuckabachee Club of the First Baptist Church. The speaker will be Mrs. H. Knox of Vancouver, president of the Baptist Women's Mission Societies of British Columbia.

## Dominion W.M.S. Heads To Speak

Two officers of the Dominion Council of the Presbyterian W.M.S.—Mrs. W. A. McLennan, the president, and Mrs. J. B. Holman, Young Women's secretary, both of Toronto—will be the guest speakers at the rally to be held in St. Andrew's Presbyterian Church on Monday evening at 8 o'clock.

The rally is being arranged by the Vancouver Island Presbyterian W.M.S. and all members of the W.M.S., adherents and members of the Presbyterian Church and interested friends are cordially invited to attend. Mrs. A. McKinnon, president of the Presbyterian, will preside.

## "Casa Loma" As Quints' Home

Toronto Has Plan To Use "White Elephant"

Canadian Press  
 Toronto, April 15.—Like real life princesses, Canada's famed Dionne quintuplets would live in Toronto's famous "white elephant" castle, Casa Loma, under an elaborate plan outlined before the civic property committee here today.

Heralded by its proponents as "Canada's greatest tourist attraction," the scheme would place the five Dionne children in the \$2,000,000 castle that Sir Henry Pellatt built and could not keep up. It now belongs to the city, seized for back taxes. The quintuplets would only have to live there eight months of the year, being free to return to Callander for the other four months. It would be grand and glorious publicity for Toronto, and, according to one optimistic backer, would yield enough money as a tourist attraction "to pay off the entire national debt in twenty years."

Alderman Percy Quinn is credited with the idea. Here are some of the grandiose results promised if the scheme were carried out:  
 Space in the rest of the now-empty castle could be easily rented as restaurants, shops, Hollywood film companies would fall over each other to pay "enormous sums" to picture the quintuplets in such romantic surroundings. More than 1,000,000 persons had visited Callander, and this golden stream could be diverted to Toronto. A nominal charge of fifty cents could be made for entrance to the grounds. Alderman Quinn was appointed a committee of one to place his idea before the property commission.

Langford Legion W.A.—The "7. A. Prince Edward branch No. 91, Canadian Legion, Langford, will hold an afternoon tea on Monday at 3 o'clock at the home of the president, Mrs. A. G. Mackie, in honor of several new members. Those interested in the work of the W.A. are cordially invited to attend the event.

Royal Scarlet Chapter—The regular meeting of the Victoria R.S. Chapter will be held in the Orange Hall, Courtney Street, tomorrow evening at 8 o'clock. Right Worshipful Grand Master Bro. C. W. Glass is expected to address the meeting. All knights and visiting air knights are requested to attend.

## Queen at Style Show

Just as she will have a front seat at the Coronation, so Queen Elizabeth (right) has a front seat at a preview in London of the regal gowns that will lend color to the momentous occasion. The richly-furred robe worn by the model is typical of the sumptuous creations in which British noblewomen will witness the crowning.

## News of Clubwomen

Children's Aid W.A.—The monthly meeting of the W.A. to the Children's Aid Society was held in the social hall of the Y.M.C.A., Wednesday afternoon. Mrs. D. McCaig presiding. A sum of money was donated to the Children's Aid Society.

Langford Legion W.A.—A social and tea under the auspices of the W.A. to Prince Edward Branch, Canadian Legion will be held at the home of the president, Mrs. A. G. Mackie, "The Gowans," Island Highway, on Monday afternoon from 3 till 6 o'clock. The affair is being arranged in honor of new members and of the Provincial President of the Women's Command, Mrs. W. H. Booth, and the provincial secretary, Mrs. R. V. Campbell.

Esquimalt Women's Institute—The monthly meeting of Esquimalt W.I. was held on Tuesday at St. Paul's Parish Hall. Satisfactory reports were read by the conveners; two card parties had been held during the month and flowers had been sent to sick members. Linen had been sent to the institute cot at the Jubilee Hospital. The two children at the Solartum adopted by the institute were reported to have returned to their homes. It was suggested that a silver tea and sale of work be held in July instead of the usual annual garden party. Mrs. T. Cave will be general convenor. The members will meet on April 27 for knitting at the home of Mrs. G. Pocock, 727 Lamson Street.

Aldan's W.M.S.—The W.M.S. of St. Aidan's Church held its Easter thanksgiving meeting in the assembly hall, on Tuesday afternoon, with the president, Miss R. Botell, in the chair. Mrs. R. G. Clark of Gordon Head led the devotional period. The Mission Band, under the leadership of Miss Esther Griffiths, put on a missionary pageant, and the C.G.I.T. group, with Miss Barbara Dawson, sang "There is a Green Hill Far Away." Both of these items were much enjoyed. Miss Laurie of the Oriental Home was the speaker, and told of her former work in connection with the W.M.S. school homes on the prairies. Mrs. Griffiths, on behalf of the W.M.S. members presented Mrs. Govanlock with a life membership certificate and pin, as a token of their love and esteem for her long and faithful service in the society. Refreshments were served, with Mrs. Haley and Mrs. Harvey acting as hostesses, and a pleasant social time enjoyed.

CITY TEMPLE Y.P.S.—The regular meeting of the Victoria City Temple Young People's Society took place Thursday evening. Mr. Eric Driver, citizenship convenor, had arranged to take the group to the B.C. Electric Power Plant at corner of Bay and Government streets, where they were met by the superintendent, Mr. E. G. Peel, who outlined briefly the history of electricity, and how the power from waterfalls, rivers, etc., was harnessed to meet the requirements of cities, both small and large. He described the plant at Jordan River, after which the group was conducted through the plant at Bay and Government Streets, and shown the different kinds of machinery and what it was used for. The next meeting will be in charge of Ernie Coleman, world affairs convenor. Mr. Bullock will be the guest speaker.

## London Bazaar To Aid Nurses

Canadian Press  
 Vancouver, April 16.—Miss Grace Fairley, superintendent of nurses at the Vancouver General Hospital, announces the Red Cross Society is holding an international bazaar in London early in June.

Profits from the bazaar will be turned over to the Florence Nightingale International Foundation to help finance the foundation's endowment fund and provide scholarships for nurses.

She said contributions, which should be sent to Mrs. Angus MacDonald, 4425 Hudson Avenue, Vancouver, before April 30, will be sent to London for the bazaar.

Miss Fairley said goods bearing the British royal emblem, or the royal coat-of-arms of any flags of the British Empire are not acceptable.

### IGNORE SMALL NERVOUS HABITS OF CHILD

One cannot read a mother's letter without being struck by the numerous instances in which a mother's tears — of the most unlikely things, may actually encourage their fulfillment. A lot of the ordinary behavior of the ordinary child deserves no attention whatever. To try to read meaning into it, is to keep oneself in a state of anticipation of unhappiness or misbehavior which goes a long way to bring it about.

Some of the small, nervous habits of children should be ignored. Certainly if a mother acts to erase them, she should at the same time keep the child unaware of both her fears and her remedial treatment. The child must be self-conscious of his failings is inspired to more and more behavior of the same kind.

"My son of nine years is impatient and irritable. He clears his throat, blinks his eyes, acts twitchy and nervous. He had an operation for tonsils and adenoids several years ago and had the bridge of his nose injured in a fall. I have used nose drops for his nose for years as it seems dry and he coughs some. He is of normal height and weight and school work is very easy for him. I worry so about St. Vitus dance, and I do not think this is a case of excess energy."

This is, though, a case of excess worry on your part. Instead of wasting time manufacturing possible illnesses, admit that your fears may be magnifying his natural acts to the point of their seeming to be abnormal.

Because it is the end of the winter, ask your doctor about the advisability of some calcium — or calcium rich foods, and some vitamin D medication. The calcium balance may be low, and nervousness and twitchiness and irritability caused by that.

Our leaflet on "Commonplace Nervous Habits" will help you to deal with those sensibly. I'd consider it acts to be those of the ordinary child who has been housed in too much this winter and needs the cures to be had from sun and air and good food. Send a self-addressed, three-cent stamped envelope with your request to Myrtle Meyer Elderd of the Your Baby and Mine department of this newspaper.

## Friendly Help Assisted Many

A meeting of the board of directors of the Friendly Help Welfare Association was held on Tuesday at Walford House. Rev. P. Comley, president, was in the chair, and the following directors were present: Mrs. F. Barber-Starkey, W. H. Davies, N. F. Ferris, J. H. Frank, E. W. McMullen, Miss H. Marshall, Dr. J. H. Moore, H. T. Ravenhill, Rev. Father Scheelan, Mrs. C. D. Schotfield, Miss Sara Spencer, F. E. Winslow, W. L. Woodhouse and Miss Elizabeth Grubb.

Reports of the work for March showed that \$1,076 had been received in the general subscriptions, the total receipts being \$1,230.28, expenditures \$688.59. During the winter expenditures far exceeded receipts, and there was still a deficit at the time of the meeting. F. E. Winslow, chairman of the finance committee, reported that plans were therefore being made for a financial campaign to take place in the near future, in which it is hoped to raise sufficient funds for the remainder of the year.

A report on the work of the case committee was given by H. T. Ravenhill, and of the camp committee by W. H. Davies. Dates for opening and closing the Fred Landsberg Sunshine Camp have been set for June 22 and August 31. Miss A. Creaser, supervisor of the Victorian Order of Nurses, and Magistrate Henry Hall have been added to the camp committee. Some improvements to the camp property were thought to be essential.

The general secretary's report showed that ninety-seven families were assisted directly during March, nine others were referred to more appropriate organizations and ten received indirect help through reports given to other organizations which were caring for them. Relief to the value of \$227.50 was given to sixteen of the ninety-seven families. A total of fifty-one cases (some new and some previously known) was referred to the Friendly Help Welfare Association during the month; twenty-seven by other organizations, of which there were eighteen: six by professional people and five by private individuals.

## A.Y.P.A. Council Plans Activities

At the monthly meeting of the Victoria and District Local Council of the A.Y.P.A., yesterday evening, Geo. Bennett presiding, it was announced the badminton league finale will be played between St. Matthias and St. Barnabas on Friday evening, April 30, at 7.30 o'clock, in the Memorial Hall gymnasium. The match will be a sixteen-straight game, after which the perpetual silver trophy will be presented and refreshments served. All A.Y.P.A. members are invited to attend. The working committee includes: W. Butts, Ian Jack, L. Dixon and Miss Trickett.

A definite action was voted on the letter received from the provincial secretary re sending its delegate to the Dominion Conference in June at St. Anne de Bellevue, P.Q. It was decided to help, with the assistance of all branches, in the appeal from the Indian Residential School at Moosonee.

An annual dance, under the auspices of the Local Council, was inaugurated and will be held this year in the new Oak Bay Hall in the near future. The committee in charge of arrangements is: Miss L. O. Trickett.

Ray Hadfield, Geo. Bennett, Ernest Gray, Chris Howland, S. Laver and Miss A. Crockett.

The next regular meeting of the council will be held on May 20.

## Opera Society New Quarters

The Victoria Grand Opera Association has moved its headquarters to 1753 Rockland Avenue. The spacious front room and large entrance hall have been converted into a small concert room, where, during the summer, the members of the association plan to hold concert performances of operas, both the lighter type and the more ambitious works. The monthly performances will be open to members and their friends, tickets being obtainable from any of the members. The first of these monthly performances will be held on Wednesday evening, April 21, when the first part of Mascagni's "Cavalleria Rusticana" will be sung. The cast will be: Santuzza, Rita Shearing; Lolo, Olive Batchelor; Lucia, Jean MacDonald; Turiddu, Norman Tyrrell, and Alfio, Ellis Todd.

## HEDLEY PROBE NEARING END

Stewart and Fraser Confer On Mine Tests; Full Publication Promised

As activity in Hedley Amalgamated Mining Company stock was reported today, Premier Pattullo said submission of Commissioner G. L. Fraser's

final report on his investigation into the share slump might be made in a week or ten days.

The Premier said he understood Mr. Fraser today was conferring with R. H. Stewart, mining engineer, who is supervising tests at the Hedley mine. He might have something to say afterwards, but further work was to be done before the final report is compiled.

The Premier said that when the government had the full facts it would issue the complete report along with a statement by himself, and an indication of the course the government intended to take with regard to the affair.

## TRAILER ADVENTURE

by Ned Jones  
© 1937, NEA Service, Inc.

BEGIN HERE TODAY

MARTHA BRITTAIN and BETTY HAYNES begin a trip up the west coast to demonstrate the new Airspeed trailer. They pick up GERRY NEAL, handsome young hitch-hiker. Neal tells them he is to meet a friend, JACK SPEDDON, at the Long Beach auto camp. But at Long Beach, Neal disappears from the trailer and Speddon drives away with Betty, leaving her alone.

Frankie, Martha calls police. Then she gets a wire, supposedly from Betty, advising Betty will meet her at a San Francisco hotel. Neal turns up again and tells Martha "this thing may be bigger" than she imagines.

Martha agrees to accompany Neal to San Francisco and find Betty. She finds herself growing more and more interested in Neal. But, arriving in "Prize", Martha finds that neither Speddon nor Betty are registered at the designated hotel. Instead, Martha gets another letter, also presumably from Betty, advising everything is all right. Disturbed, Martha wants to call police but Neal protests that such a move might cause Betty's death. And that night Neal tells Martha he loves her.

NOW GO ON WITH THE STORY

CHAPTER XIII

The manager of the Bridge Auto Park grunted and turned over on his bed. But again there came that insistent knock at the door of his cottage—a knock which he hoped might be part of a dream. Grumbling audibly, he climbed from his sheets, pulled on an ancient but serviceable bath robe, and shuffled to the door.

He was startled to see a rather breathless and very attractive young woman standing there. And he was more amazed yet when he recognized her as the young woman who had called earlier in the day. The young woman for whom he'd been holding that airmail letter from San Diego.

"I'm sorry to bother you at this time of night," Martha said. "But I want space for my coupe and trailer." The man yawned. "There's a lot of it out there, lady. Just park anywhere and I'll talk to you in the morning." "You see, I'm with the Airspeed Trailer Company. I'll be here two or three days—"

"Showing off the trailer? That's okay, so long as you pay the regular rent. One fellow, a while back, figured his trailer ought to draw customers and he should get in here rent free."

"I intend to pay," Martha said. She reached into her bag. "Never mind now. I don't like to lose sleep. See you in the morning." The door slammed decisively, and Martha returned to the trailer. There were other cars and trailers in the camp, but she seemed to be the only tenant awake at that hour of the night.

Perhaps, Martha told herself, she had been foolish to run away from the hotel and not wait until morning to come to the Bridge Auto Park. But when she had disengaged herself from Gerry Neal's arms and escaped into the solitude of her room, she knew that she mustn't see him again. He would be telephoning in the morning, perhaps even that night—and she had to get away to think.

Since they had reached San Francisco the quick turn of events had anesthetized her own feeling for Gerry Neal. But his swift, uncontrolled confession there in the hotel hallway had precipitated a condition which Martha did not want to face. Hurriedly she checked out of the hotel, fearing every moment that Neal would try to stop her. Within fifteen minutes she was speeding in the little coupe to reclaim the trailer where Neal had left it earlier in the day.

The Bridge Auto Park proved to be an excellent location for displaying the merits of the Airspeed. On one of the main arterials for both north and southbound traffic, it drew many a curious motorist attracted by the streamlined trailer. With these, as well as with the occupants of the auto park itself, Martha was kept busy. At the end of the day she had pointed out the merits of the trailer to scores of prospects, handed out as many advertising leaflets. And that night she made her report to Arnold Bloss, grateful for the task to keep her mind occupied.

That day and the next she stayed on at the Bridge Auto Park. Then,

following Carrington's itinerary, she crossed the great bridge into Oakland and spent the day there.

The three days proved a tiresome grind, and at the close of the last Martha tumbled onto the made-up berth and dropped off to sleep almost instantly. When she opened her eyes the sun was streaming into the trailer. But it was not the sunshine which had awakened her. There had been a distant tapping at the rear window. Looking up she saw the smiling face of Gerry Neal.

"Breakfast ready?" At the sound of his voice Martha's heart rose in her throat and whirled there like a frightened quail. She knew in that magic moment that all along she had wanted him to follow her—and been afraid he might not. She knew that despite all her anger and all her suspicions, she had wanted to see him again.

Hurriedly she drew on her dressing gown and went to the window.

"I'll wait ten minutes," Gerry told her. "Just one cigarette."

"How did you know where to find me?"

Neal grinned. "You showed me your itinerary. And I've known where you were. When I found you'd left the hotel I telephoned the Bridge Auto Park. I was mighty relieved when they said you were there. I was afraid perhaps you'd started north against my advice. You leave this morning, don't you?"

"I should have left an hour ago."

"You mean we should," Neal smiled. "Better start the coffee."

Without answering, Martha turned from the window. It was nearer twenty minutes than ten when she had dressed and made toast and coffee. But near the opened trailer door Neal was still waiting patiently.

"All set?"

"You're invited to breakfast," Martha said. "But not to go with me. And I'll have to hurry."

Neal entered the trailer and sat down before the table, watching her pour the coffee. "You don't mean that."

"I do, though. I've a job to do. You've said that the best thing for me is to keep on for the Airspeed Trailer Company. I can do that by myself. And you're not helping me to find Betty."

He was silent a moment, still watching her deft hands. "Your next stop is at Eureka, isn't it?"

"Yes."

"There are some lonely stretches on those northern California roads. You'd better let me come along."

Martha sat down, pushed the lever on the automatic toaster. "San Francisco seems really booming. Why don't you try to find a job and settle down?"

"My job is to see you out of this."

He reached across the table, took her hand, holding it tightly. "Look here, Martha—that night at the hotel I stopped pretending. Why don't you stop it, too?"

"I don't know what you mean."

"Yes, you do, Martha. You haven't the slightest reason to believe in me, but you have believed in me. I've been evasive and secretive, but you've trusted me. Why? Why have you done that?"

"Because I want to find Betty," Martha said.

Neal shook his head. "No, Martha. Your judgment tells you that you should report me to the police, ask them to investigate Betty's disappearance and broadcast a description of Speddon and his car. Isn't that true?"

"Yes . . . it's true," Martha sprang upward from the table. "It's true—and that's what I'm going to do!"

(To Be Continued)

The Oak Bay Council yesterday authorized a grant of \$100 towards the school children's celebrations in connection with the Coronation programme being planned for Greater Victoria.

## Slash Budget To Save Single Mill

(Continued from Page 1)

Alderman Archie Willis suggested the city follow Alderman John Worthington's plan to set a rate and cut the budget down to it.

Alderman Ed. Williams said he had expected much more than a one mill reduction in the tax rate through the application of the Fortin plan. Mr. Macdonald explained taxes on the average home would be approximately 4 per cent lower than last year on a forty-four mill rate in view of the reduced assessment.

Alderman Willis suggested the council convince the public of the lower trend in city taxes and the rising movement in taxes of outside municipalities in order to sell more reduced property, and place more land back on the tax lists.

TAX SALE VALUE QUESTIONABLE

On that basis, Mr. Macdonald replied, the city would have to sell about 200 times as much as it did last year to realize sufficient revenue to meet the first payment of principal under the Fortin scheme. Over a period of ten years, 40 per cent of reversioned property sold to private buyers had come back on the city, he said.

If the city had ignored the Fortin plan and levied for everything this year, Mr. Macdonald told Alderman Williams, the tax rate would have been about sixty-four mills. If the city levied for interest only, as it did last year in respect to sinking fund, the rate would have been forty-nine mills.

In reply to Alderman J. D. Hunter, Mr. Macdonald said restoration of 5 per cent of salaries, exclusive of school teachers, would cost the city about \$27,900 for the full year and \$18,000 for the remainder of the year from May 1.

Before the council started on its budget slashing, J. V. Fisher and C. H. O'Halloran presented a brief on behalf of St. Joseph's Hospital, and requested the city to make a grant this year to the institution to help it to overcome its operating deficit. The brief was received and promised consideration.

SEND BACK LIBRARY BUDGET

Turning to the estimates, the council referred the library budget back to the library board for further consideration with a view to reducing their figures.

Maintenance costs of the city engineer's car were \$150 in all, \$75 being taken off the budget under the engineer's department and \$75 from each of the water commissioner's votes on Sooke and Goldstream systems. The price for a new car for the official was cut \$100 to \$700.

A suggestion was advanced that the assistant city engineer take over the city owned car, he uses and cut the allowance for it to \$25 a month instead of \$325 a year. The matter was stood over.

Stationery, postage and telephone estimated expenditures for the department were cut \$25 to \$625. Street repair costs were reduced \$1,000 to \$17,500. The sum of \$25 was cut from \$100 from the vote for moving poles, \$100 off the estimate for repairing gutters and \$100 off repairs to wooden sidewalks.

STENOGRAPHIC ERROR

A stenographic error in the appropriation for asphalt repair, listed in the draft at \$125, was raised on the correct estimate to \$12,250, and was stood over for further consideration.

The new sidewalk vote was halved to become \$500 and \$200 was taken off original \$1,700 for street and warning signs. The sea wall appropriation was halved to \$500, and the weed cutting vote of \$2,500 was brought down to \$500.

The Johnson Street Bridge painting and contingency item was reduced \$300.

The council struck \$25,000 from the vote for replacing wood paving to leave the item at \$950 and eliminated street corner rounding projects set at \$4,210.

Alderman James Adam asked the garbage estimates be stood over while the city applied for foreshore rights at the foot of Erie Street, where a fill has been contemplated.

Costs of dumping garbage there would be about \$2,000 a year more than the present costs, and would establish a good park, the alderman said.

Costs for repairs to the garbage wharf were cut \$250 to \$750, and the garbage labor and material vote was pruned \$614.52 to \$30,500. The street cleaning vote was cut \$1,601.20 to an even \$10,000.

Sewer maintenance estimates were pruned \$750 to \$10,500, and \$100 was taken from the \$2,100 repair vote for outfalls and main surface drains.

TO STUDY CAR ITEMS

Estimates for five cars in the section were tabled for investigation by the public works executive.

In the waterworks department the council cut \$1,000 from the general maintenance vote of \$12,325 and \$100 from the \$500 telephone appropriation. In the miscellaneous section the pipe renewals vote was reduced \$100, as were those for hydrants, and the estimate for Smith's Hill reservoir. Maintenance for the Sooke Harbor system was brought down \$90 to \$700, and the vote for new mains was halved to \$2,500.

On the Goldstream system the council took \$150 from meter repairs item, \$75 from hydrant repairs, \$200 off the main maintenance estimate, \$100 off the fund for maintenance of ditches, \$100 off the vote for cleaning shores of lakes, \$500 from the figure for removing timber from Jack Lake and \$50 off the Goldstream telephone system appropriation.

The City Council will spend another afternoon and evening with its 1937 budget on Monday, according to a decision reached at last night's meeting. The council will assemble at 4 o'clock to hear a delegation from the Civic Employees Association requesting restoration of salary cuts before proceeding with their attack on the estimates.

## HARRY SPARKS IS PRESIDENT

Active Club Names Officers At Annual Meeting in Dominion Hotel

The Active Club of Victoria last night elected Harry Sparks to its presidency. Other officers named at the annual meeting, held in the Dominion Hotel, were vice-president, Dr. J. L. Murray Anderson; secretary, Douglas Nixon, and treasurer, Dorset Goepel.

Leslie Lamb, Harold O'Neill and Captain W. H. N. Moorhouse were re-elected to the board of directors, and Alan Baker and Lawrence Mainwaring were chosen to fill the other two places on the board.

The executive accepted the resignations of William O. Findlay, Lee McMartin and Frank Skellings, all of whom have moved to Vancouver. Mr. Sparks, in an address in which he thanked the members for their confidence in him, expressed optimism for the future success of the club in Victoria.

A vote of thanks was passed to William Clark, manager of the Dominion Hotel, for his co-operation and support. Harold O'Neill was thanked for his work as chairman of the attendance committee of the club.

It was decided to stage a competition in entertainment for the next five meetings of the club, with two members taking charge of the programme on each occasion.

## Won Diction Cup

## Engineer For Oak Bay Named

A. S. G. Musgrave, local surveyor, will be permanently appointed as engineer of Oak Bay on October 1, it was announced at the Oak Bay Council meeting yesterday.

Mr. Musgrave has been acting engineer since the death of the former engineer, the late J. H. Richardson.

Considerable data on fire equipment submitted by various firms was referred to the special fire committee of the Oak Bay Council yesterday.

A grant of \$100 towards work of the local branch of the Canadian National Institute for the Blind was authorized by the Saanich Council yesterday evening. The council heard an eloquent appeal from Major H. W. Watts who appeared on behalf of the institute to ask for funds for the organization's work.

## Claim Valuing Contract Broken

Saanich Council Asks Resignation of Land Valuator

For alleged failure to live up to his contract for the revaluation of improved and farm properties, the resignation of E. J. Merrett was requested by the Saanich Council yesterday evening.

Mr. Merrett and his son were appointed by the council at the beginning of the year to undertake the revaluation of the municipality and have it completed by October 31.

The council was informed Mr. Merrett's son had not been engaged in the work and a search of letters connected with the contract revealed the position had been given to both. Failure of the son to take part in the work constituted the breach of the contract, it was claimed.

The motion to ask for Mr. Merrett's resignation was opposed by Councillor John Watson, Ward One, on the grounds Mr. Merrett was doing his best with a task that had proved more difficult than was at first anticipated.

It was made clear that the council's action did not suggest any reflection on Mr. Merrett's ability, and there was no suggestion the work he had done was not competently handled.

Councillor A. G. Lambrie, Ward Three, did not vote on the motion. As a result of the action the council will interview former applicants again tomorrow night and choose a man to continue the work.

## Nanaimo Takes Choir Trophy

Nanaimo, April 16.—Nanaimo Men's Musical, directed by A. Dunsmuir, triumphed in the class for male choirs of from fifteen to thirty voices yesterday, finishing in front of the Victoria Masonic Male Choir, last year's winners, and the Comox District Men's Musical, a former winner of the trophy.

SOME so-called "white" things look positively drab against clothes washed in Pearl White Naphtha. Housewives who made impartial tests were amazed at the whiteness of Pearl washing. And no wonder! Pearl loosens that ingrained dirt that makes clothes appear grey. Pearl suds are so rich and quick that you need only a few minutes

of the lightest rubbing in warm water—no need to redden your hands in hot water. Try Pearl Soap next washday, and know the joy of clothes that are dazzling white simply because they are entirely clean. And because Pearl acts only on dirt—never on fabric—it insures long life for everything.

## Luncheon For Oak Bay Reeve

In compliment to Reeve R. R. Taylor, who will leave next week for a three months' sojourn in England to participate in Coronation celebrations, the Oak Bay Council will attend a private luncheon in the Empress Hotel tomorrow at 12.30 o'clock.

The reeve was granted "three months leave of absence" by the council yesterday, and on behalf of the council Councillor J. Angus extended best wishes to Reeve and Mrs. Taylor for a pleasant holiday.

YOU AGREE 3 times OR YOU DOUBLE YOUR MONEY

DEEP BROWNED BEANS

Exclusive New Cooking Method

YOU'RE going to like these Deep Browned Beans made by Libby's new exclusive "Deep Browning" method—or we'll know the reason why! Because Libby's will pay you DOUBLE YOUR MONEY BACK if you don't agree they're the best you ever tasted, from every standpoint: 1 flavour; 2 texture; 3 colour.

Plump, sound beans are "done" so thoroughly by this new method that each and every bean is browned through to the very centre, leaving them firm but tender, deliciously mealy... and EVERY bean is the same uniform, richer flavour... not overdone, not underdone... just right. And the sauce—there's added goodness! The tempting tang of ruddy tomatoes, plus zesty seasoning—with or without pork, as you prefer. No wonder "Deep Browned" beans are carrying people back to the "good old days" when home-baked beans WERE beans!

Try Libby's Deep Browned Beans today. You can't lose.

## Detroit Red Wings Capture World Hockey Championship

### Barry and Robertson Are Brilliant In 3-0 Victory Over Rangers

STRANGE AS IT SEEMS

—By John Hix

### THE SPORTS MIRROR

By PETS SALLAWAY

ED FROELICH, trainer of the Brooklyn Dodgers in the National Baseball League and handler of top-flight athletes for eleven years, rates two hockey players who have departed the scene—Howie Morenz and Charlie (Chuck) Gardiner—among the three greatest stars he ever handled. The other was the late Ken Meenan, backfield ace of Northwestern University football squads.

A staff writer of The New York World Telegram caught Froelich, former trainer of Chicago's National Hockey League Black Hawks, at the Brooklyn training camp at Clearwater, Fla., in reminiscent mood. He quoted Froelich:

"Morenz was to hockey what Babe Ruth was to baseball. He was the greatest center ice man the sport has known—probably the greatest it will know. Gardiner, a goalie, had the same rating in his department, and his display of genius in 1932 is something that will live in hockey history. His head was virtually sewn together when he came up to the final title game that year.

"Six stitches were closing a wound over one eye, four stitches were doing the same for a wound over the other eye, and ten stitches held together a wound on his scalp, all suffered within three days of the final battle with the Boston Bruins. But he had the wounds covered and wore a football helmet for additional protection and went out and held the Bruins scoreless to give the Black Hawks the championship."

Froelich described Ken Meenan, who was in Northwestern football in 1931, as the greatest blocking tackle he ever saw. He played only one year of varsity football, however. He was badly injured in a motorcycle accident and when told by doctors they would have to amputate a leg he said he would rather die than lose it—and he got his wish.

What to tip a caddy? That is the question now before the golf clubs of Britain. The golf secretaries' organization is seeking opinions from all clubs with a view to making the charge and tip uniform. As one player put it: "No tip is satisfactory now. Either it is too high for the player to afford or too low for the caddy."

The association would put an end to that well-known embarrassment of having to ask your host at a new club "how much do you give your boy?" About eighty cents is believed to be the most widely accepted figure for a round, including tip. For a day's play with lunch money the chosen figure is two dollars.

The association's circular met with general response but not all clubs shared the same opinion of the merits of a regular rate. Some pointed out that under the proposed scheme the poor caddy would get the same as the good and that consequently the really helpful caddies would soon lose their initiative.

One response was to the point, preferring merely a settled charge: "There can be no solution of the caddy's difficulty as long as the practice of tipping remains in force."

Here's what the New York Giants, National League baseball champions, had to say about young Bob Feller, Cleveland's American League pitching sensation, after battling against him in an exhibition game:

Burgess Whitehead: I never battled against anything like Feller there. Not even Dean at his fastest can throw with this kid.

### WINGS SECOND TEAM TO WIN TWO TITLES IN ROW

Canadian Press  
 Detroit, April 16.—Cow bells clattered and champagne glasses were lifted until dawn in this hockey-mad city today in honor of Detroit Red Wings—hockey history makers. The bells, it seemed, were the favorite noise makers and champagne the drink of all.

With four stars watching from the sidelines, the great Jack Adams-piloted machine shut out the amazing New York Rangers 3 to 0 and placed the Stanley Cup back in its Detroit show window until the end of next season.

### Faints from Joy

JACK ADAMS

Canadian Press  
 Detroit, April 16.—Manager Jack Adams, his life's ambition realized for the second year in succession, posed for pictures in the world-champion Detroit Red Wings' dressing room last night. He jumped, roared and laughed, then, for probably the first time in his life—he fainted.

The room, transformed into a mad house of berserk humanity, went silent while Coach Adams was half-carried into a separate room, and then the bedlam broke out all over again when it was ascertained it was nothing more serious than a weak spell from excitement, joy and worry.

Under escort of several police officers, the Stanley Cup was brought in the room where league president Frank Calder presented it to Herbie Lewis, Adams and owner James Norris, each in turn for the benefit of photographers.

ROBERTSON MOBBED  
 Earl Robertson, the minor league netminder brought in to replace Noddie Smith, was mobbed as he waddled into the room with his arms about two-goal Marty Barry.

Everyone had the opinion "Robbie" gave one of the greatest performances ever seen here. He almost had his hand and shoulder broken by hand-shakers and back-slappers.

"They just can't keep you in the minors, now," Barry told him. "You were great, kid—sensational."

"That last part goes for you, too, Marty," Earl said.

"Boy, it's great," Marty said. "First they award me the Lady Byng Trophy and then I score two goals tonight. I guess I was celebrating."

Little Larry Aurie threw his crutches on the floor and did a war dance on his good leg.

"That's one goal for each of the broken-legged guys on this team," he shrieked at Adams. The other "guys" Captain Doug Young and Orville Rouleston, yelled agreement.

Cheers went up when the "Silver Fox," of New York's great Rangers, Lester Patrick, entered the room.

"If I'd wanted anyone to beat us," he said as he shook Norris's hand, "it was your team."

In the Ranger room, Patrick told of what a great club the world champions were. "But we were greater in defeat."

"It was a wonderful series between two great clubs," he added. The players left the room singly and in groups, many of them saying good-bye to Coach Lester until next season.

Owing to the non-arrival of individual trophies, Jack Taylor, president of the Victoria and District Basketball League, yesterday evening announced that the presentation of trophies scheduled for tonight in Spencer's dining-room has been postponed until a later date.

The final gong, to the accompaniment of cheers and screaming from a joy-maddened, arena-jamming crowd of 14,102—largest gathering of the four games of the series here—marked the first time that a National League team from the United States has won the N.H.L. championship and the Stanley Cup two years in succession.

It is also the second time in history any team has captured both titles two years in a row. Ottawa Senators accomplished it in the seasons of 1919-20, 1920-21.

THREE PLAYERS STAR  
 As in the game Tuesday—fourth of the series—clean-cut Marty Barry, all-star center; Syd Howe, Ottawa, versatile gamecock, and goalie Earl Robertson were the brightest stars in a shining firmament of inspired batters.

Barry, announced winner Wednesday of the Lady Byng Trophy, awarded annually to the N.H.L. player judged to be most gentlemanly and most helpful to his team, tallied two of the goals and an assist on the third. Long John Sorrell counted the other—his first since the playoff began.

Robertson, spurned by Toronto Maple Leafs when they had a chance to buy him last year and chose Walter Broda instead, gave a display of goaltending never surpassed in this city.

Brought up from Pittsburgh Hornets, Detroit farm team, to replace the great Normie Smith, Vestina Trophy winner this season, who injured his arm in a league championship playoff game with Canadiens in Montreal, Robertson played sensationally all through the series. It is unlikely he'll go back to the minors and Jack Adams announced the slick-haired kid is for sale.

In the first game of this low-scoring series in New York a week ago Tuesday, Rangers won, 5 to 1.

Detroit took the second game, 4 to 2, and Rangers again forged into a game lead in winning the third tilt, 1 to 0. Detroit evened the count by reversing that score in the fourth meeting, and Robertson gained his second successive shutout of the full length series last night.

Howe, a little rugged demon, matched his previous games performance with a great display of defensive hockey, mostly on the defense, but sometimes at the forward line.

GALLAGHER OUTSTANDING  
 Kenora's Johnny Gallagher played probably the greatest game of his career in working like a Trojan on the Detroit rear guard. He played forty-five minutes and bore the brunt of defence duties after Eddie Goodfellow, suffering from a wrenched knee received in the fourth game, was unable to return for the second and third periods.

Detroit went into the lead thirty-eight seconds before the end of the first period. With Joe Cooper serving a penalty for bodying Herbie Lewis, Barry whipped the puck past Kerr.

The New York team which had swept aside the Toronto Maple Leafs and Montreal Maroons to reach the finals, came back with wild five-man rushes in a mad attempt to score, and almost did. Only a referee's decision that Lewis held Neil Colville as the "man with the iron jaw" shot, prevented a goal by Babe Pratt from counting in the second period. Alex Shibicky was awarded a penalty shot that Robertson stopped easily.

SECOND GOAL  
 Barry set the stage for Detroit's second goal, getting the puck away from Pratt and shooting it to Hee Kilrea who pushed it back for Barry's shot. Sorrell came in for the rebound and poked the puck under Kerr, diving in a futile attempt to save.

Barry counted again at 2:35 of the third period, putting the game out of Rangers' reach. Sorrell, breaking up (Turn to Page 18, Col. 8)

### Les-Jack All Even in Words

Patrick and Adams, Rival Managers of New York Rangers and Detroit Red Wings Talked a Mighty Fine Stanley Cup Hockey Series

Canadian Press  
 New York, April 16.—Lester Patrick and his New York Rangers lost the Stanley Cup series to Jack Adams' Detroit Red Wings, but in the matter of words these top-ranking National Hockey League managers divided honors about evenly today. They talked as fine a series as their teams played.

"They are the greatest hockey players in the world," said Adams of his Red Wings as he tapered off his words series with Patrick, while Lester countered with congratulations and kept the talking lauders even.

Only once did lean-limbed Lester and rotund Jack falter. That was before last night's saw-off engagement in the best three-of-five game tournament for six points. Edmonton, a tangle-headed blond, has been a standout—his weight is the only thing that may hamper his hockey future.

Heading Redmen's parade of scorers are Al Webster, second string center and Roy Hextimer, winger of the first line. Each has scored three goals and gained one assist in the three games and coach Marie Silverman figures these boys will play leading parts in tomorrow afternoon's contest when he hopes his team will even the best-of-five series at two wins each.

Both teams welcomed the breather from last Wednesday's game, which Monarchs won 2 to 1. Both previous tussles went into overtime, Redmen taking the first 4 to 3, and the westerners evening it up Monday night with a 6 to 5 victory.

Toronto, April 16.—Professional scouts today kept a close watch on a boy who may prove to be another mighty-mite of big league hockey—Little Dick Kowalak. The 135-pound bundle of dynamite has played a big part in giving Winnipeg Monarchs an edge over Copper Cliff Redmen in the struggle for Dominion junior supremacy.

Dick has fired two goals and figured in six others to lead both teams in scoring. His wingmate, twenty-year-old Johnny McCreedy, is next in line with four goals and two assists for six points. North Battleford and Sudbury Battle In Crucial Fifth Game of National Senior Hockey Final at Calgary; Former Seek Third Straight Win

Associated Press  
 Calgary, April 16.—A prospect that Rudolph "Bingo" Kampan may return for the fifth game of the Allan Cup series tonight buoyed Sudbury Tigers' hopes of taking their Canadian senior hockey final series with North Battleford Beavers.

The big defenceman suffered a gash in his right foot in the first game more than a week ago. He had two stitches taken in it. His return would put the easterners' defence at full strength again. Teaming with chunky little Frank Lavigne, the rearguard would be given relief by Verdel Price.

Manager Jack Abbott of North Battleford, who became coach of the Beavers during the western Canada final series, said the Saskatchewan team would send out the same ten players that saw service in the four previous cup games.

### OAK BAY IN HOCKEY WIN

Defeat Victoria High Girls 3 to 1 in First Game for May Tulley Shield

Playing on the Oak Bay High School grounds yesterday afternoon the Oak Bay High School girls' grass hockey eleven downed the Victoria High School 3 to 1 in the first game of the best out of three May Tulley Shield series. The next clash will be played Thursday on the Fernwood Road grounds.

The first half opened with a rush by Oak Bay which nearly resulted in an early goal but fine work by the Victoria defence kept them out. Oak Bay continued on the offensive and ten minutes later R. Turner scored on a shot from in front of the goal. A few minutes later the same player broke through the Victoria backs and annexed the second goal for the Bays. The score remained at 2 to 0 until half time.

Early in the second half Turner scored her third goal and clinched the game for the Oak Bay girls. Half way through the second half Anna Peden scored the lone tally for Victoria. Mrs. H. A. Tomalin refereed.

### Local Eleven Meets Nanaimo

Esquimalt Meat Market to Play Up-Island In Island Final Tomorrow

Esquimalt Meat Market, second division juvenile soccer eleven, and lower island champions, will be in Nanaimo tomorrow, where they will meet the Galahads in the island final. Kick-offs at 10:30 o'clock. The game will get under way at 2:30 o'clock.

Local juvenile league fixtures carded for tomorrow are as follows:

First Division  
 Wimpy's Capitals vs. Hill's Corner, Heywood Avenue; referee, J. Maxwell  
 Second Division  
 Oak Bay Rovers vs. Strawberry Vale, Oak Bay Park; referee, H. Tooby.

Fourth Division  
 Victoria Athletic Club vs. Oak Bay Ramblers, Victoria West Park; referee, D. McMillan.

Oaklands Aces vs. St. Louis College, Spencer's Park; referee, Joe Obee.

Fairfield Bluebirds vs. Esquimalt Meat Market, Royal Athletic Park.

Kick-offs at 10:30 o'clock. The V.A.C. line-up is as follows: Thomas, Simpson, Tonkin, Popham, Atherton, McAllister, Shubrooke, Perkins, Simpson, Mar, C. Smith, Travis, E. Smith, Hardy, Lowe and Watson.

Oak Bay Ramblers—McCreedy, D. Brown, Anderson, Donaghy, Olsen, Elyth, Wells, Scott, Wright, Bannister, McKay, Clayards and Sheppard.

Players are asked to be at Victoria West Park by 10 o'clock.

MONTANEZ WINNER  
 New York, April 16.—Pedro Montanez, bidding for a lightweight title shot, flattened Eddie Ran, Poland, in six rounds of their windup bout at Star Casino last night. Montanez scored 137½, Ran 144½.

On Sunday morning the annual men's club championship will get under way at the Macaulay Point Golf Club. Norman Wallace will defend his title.

The draw and starting times for the qualifying round follow:

9:00—A. E. Morgan, E. T. Rance and J. Simpson.

9:05—H. Thompson, C. S. Brown and C. W. Wilson.

9:10—F. Robbs, H. H. Lively and J. R. Stone.

Victoria Motorcycle Club to Stage Annual Event for Kirk Trophy; Rough Journey Over 100-mile Route Arranged

Members of the Victoria Motorcycle Club are tuning up their iron steeds for the annual reliability trial for the Kirk Coal Company Cup, which will be staged on Sunday. Riders will leave the City Hall at 9 o'clock in the morning.

It will be an all-day ride over the back roads and trails of Saanich Peninsula, Highland District, Sooke, Metchosin and Albert Head, a distance of approximately 100 miles.

The contest is a speed judging affair, with no watches and speedometers allowed to those competing. Various speeds are set according to the type and condition of the roads between checking stations, which are generally about seven miles apart.

The aim of the riders is to arrive at the checks on time. They are penalized for being even a fraction of a minute early or late.

Secret checks are established in the bad sections, such as on the route where mud holes are plentiful, where riders are judged on ability to handle their machines in the rough. A special riding ability award is presented to the rider losing the least number of points. Many riders who have kept well to their schedule all day will drop many points when riding ability marks are deducted.

NOT SO TOUGH  
 This year the course will not be so tough and rough as in previous years, but riders will have to use their judgment due to the distance and varied classes of roads covered. Cecil Frampton, president of the club, is the present holder of the cup, and will defend his honors.

One of the best entries on record for this event is expected to be in the hands of Reg Williams, local referee for the American Motorcycle Association by 8 o'clock tonight. Williams, Art Gillan and Ted Wilson comprise the committee in charge.

Checkers and riders will retire to the Belmont Inn, Colwood, for lunch. The contest will terminate at the home of "Pop" Shanks, Holmes Street.

In the first round of the Hodges Cup competition played by women members of the Gorge Vale Golf Club during the week, the matches resulted as follows:

Mrs. S. Enke beat Mrs. J. McKinnon; Mrs. A. T. Hunkin beat Miss L. Newham; Miss Jean Torrance beat Miss E. B. Walker; Mrs. D. W. Morry beat Miss V. Gleason; Mrs. W. H. Liddiard won by default from Mrs. A. Creffield; Miss Esther Smith beat Miss Flora Hill; Mrs. H. H. Allen beat Mrs. H. P. Hodges; Mrs. L. Silburn beat Miss I. Whitaker; Miss L. Harris beat Mrs. B. H. Anderson.

The next round must be played on or before April 25, and the draw is as follows: Mrs. Morry vs. Mrs. Liddiard; Mrs. Allen-by; Mrs. Silburn vs. Miss Torrance; Mrs. Enke vs. Miss Smith; Mrs. Harris vs. Mrs. Hunkin.

Title Golf At Macaulay Links  
 On Sunday morning the annual men's club championship will get under way at the Macaulay Point Golf Club. Norman Wallace will defend his title.

The draw and starting times for the qualifying round follow:

9:00—A. E. Morgan, E. T. Rance and J. Simpson.

9:05—H. Thompson, C. S. Brown and C. W. Wilson.

9:10—F. Robbs, H. H. Lively and J. R. Stone.

9:15—A. E. Slocomb, E. Shadbolt and A. McGown.

9:20—F. Brown, A. Roberts and W. G. Watson.

9:25—J. W. Rawlinson, G. A. Bruce and J. W. Holyoak.

9:30—J. T. Adams, J. Cox, C. E. Adams and G. Linsley.

9:35—A. McCabe, Alex Caddell and W. Allen.

1:00—H. S. Morgan, T. Wilson and Dr. G. F. Aylward.

1:10—H. Clark, J. P. Morgan and Ian Wallace.

1:15—N. Wallace, G. M. Lindsay and Eric Wright.

# England and Scotland In Great Football Clash Tomorrow

## Expect 150,000 To Attend Great Game At Glasgow

Strong Elevens Are Named To Take Part In Classic; Drew Last Year

Stiff Tests In English League

Glasgow, April 16.—An all-time high in football attendance—international tilts or otherwise—is expected to be recorded tomorrow at Hampden Park when the annual international match between Scotland and England is played off.

Football association officials are making plans to accommodate 150,000 persons. The previous high was

established in this celebrated enclosure in 1933, the Scotland-England tangle serving as magnet. There were 130,259 paid admissions.

Another "first" will be chalked up. The Scottish Football Association is making the contest Glasgow's initial all-ticket game. There will be no last-minute buying pastboards—they were all dispatched by mail early this month to applicants who had their bids in months in advance. No first division league matches are scheduled for tomorrow.

A remarkable feature lies in the fact the match will have no bearing on the international standing. Wales was returned victor of the competition March 17 when the Welshman blasted Ireland's hopes of winning at least one tangle this year with a 4 to 1 verdict.

At Wembley Stadium, London, last year, Scotland clinched international honors with a 1 to 1 draw before a 90,000 crowd. It was the fiftieth

meeting between the two countries and the seventeenth stalemate. At present the scorecard reads Scotland, winner twenty-seven times and England eighteen.

### TEAMS SELECTED

The teams will be as follows:  
Scotland—Goal, Dawson (Rangers); backs, Anderson (Hearts), Beattie (Preston North End); halfbacks, Massie (Aston Villa), Simpson, Brown (Rangers); forwards, Delaney (Celvic), Walker (Hearts), E. O'Donnell (Preston North End), McPhail (Rangers), Duncan (Derby County).

England—Goal, Woodley (Chelsea); backs, Male (Arsenal), Barkas (Manchester City); halfbacks, Britton (Everton), Young (Huddersfield Town), Bray (Manchester City); forwards, Matthews (Stoke City), Carter (Sunderland), Steele (Stoke City), Starling (Aston Villa), Johnson (Stoke City).

### ENGLISH LEAGUE

London, April 16.—Three points from three remaining matches will give Manchester City its first championship of the English Football League. Unbeaten in league warfare since the New Year, the Main Road squad traddles the pack with a three-point advantage over Arsenal and Charlton Athletic.

The Mancunians went into a commanding position Wednesday when they won 3 to 1 at Sunderland, the victory being all the more meritorious as Barkas and Bray were not in the line-up. The pair are playing for England against Scotland at the week-end.

The rival contenders each have three matches before the season ends, May 1. The City is away to Preston North End and Birmingham is at home to Sheffield Wednesday. Portsmouth and Bolton Wanderers visit Arsenal at Highbury, the Gunners remaining away game being with Chelsea. Charlton is host to Bolton and Brentford, with an away fixture at Everton.

First division relegation problems are still unsolved. Sheffield Wednesday, fallender with twenty-eight points, meets West Bromwich Albion, also in the danger zone. Manchester United, one point better off, has a tough match at home against Middlesbrough.

Manchester City will have to fight hard at Preston, where the cup finalists will also be weakened by the absence of Frank O'Donnell and Beattie, who are assisting Scotland. Portsmouth may lose points at Highbury, while Charlton will do well to win at Everton.

Blackpool and Leicester City appear likeliest candidates for promotion from the second division. Leicester and Bury are tied for the runner-up position, two points behind the Seaside, who have fifty-two points, but the City has a game in hand. The clubs are away from home at the week-end—Blackpool at Coventry, Leicester at Chesterfield and Bury at Notts Forest.

### DONCASTER DOOMED

Doncaster Rovers are doomed to appear in the third division next year, but Notts Forest and Bradford City are still fighting bitterly to escape the junior loop.

While Notts Forest is battling to avoid relegation, the neighboring Notts County outfit is striving to regain second division status. With the famous Hugh Gallacher at centre-forward, the County has swept to the top of the southern group in the third division and leads Luton Town by two points. The Town, however, has a game in hand and a better goal average.

Tough matches face the promotion aspirants. Notts County is due at Watford and Luton at Gillingham.

Lincoln City missed a golden opportunity to strengthen its chances at the top of the northern section by losing 2 to 2 at Grimsby yesterday. With fifty-five points, Lincoln has a one-point margin over Stockport County, but only three games left to play, one less than its rival.

## MAT CARD IS NOW COMPLETE

Chief Thunderbird, Saanich Indian, and Herbie Freeman, rugged exponent

from New York, were booked yesterday to complete the slate of six heavyweight wrestlers who will enter the ring together tomorrow night at the Tillikum gym for the battle royal.

Thunderbird is just fresh back from a tour of Pacific Coast mat circles and was immediately signed for the grand opening fracas.

British Empire champion, and Steve Strelch, Hollywood, are the other four top-notchers who will appear for duty.

The six will climb through the ropes promptly at 8:30 o'clock and will endeavor to eliminate one another. After they have been pinned they must leave the ring, with the first two eliminated appearing in the

opening bout and so on. There will be three bouts.

Results of game played at Victoria Quilting Club grounds, corner Pandora and Blanshard: S. Watt 21, T. Alexander 16 and J. Manson 14. S. Watt and T. Alexander will play tomorrow, starting at 1 o'clock, a single-handed game of thirty-five points.

## Bowling Green Opens On May 1

C.P.R. Officials  
Arrive On Coast

C. B. Foster and H. F. Mathews Predict Heavy Summer Tourist Business

C. B. Foster, passenger traffic manager, Canadian Pacific Railway, Montreal, and H. F. Mathews, general manager, C.P.R. hotels, Montreal, are expected to reach Victoria tomorrow or Sunday on a western inspection tour.

Both officials are confident that Canada is in for a big tourist season.

Mr. Foster, on arrival at Vancouver, said his office throughout the United States and Canada reported prospects for increased travel to the Pacific coast and northward to Alaska, to the Canadian Rockies and to the company's resorts along the Atlantic coast, while overseas travel on the company's ships was showing a sharp increase owing chiefly to the Coronation traffic.

Mr. Mathews says he expects increased travel this summer. Canadian Pacific hotels at Banff and Lake Louise, bungalow camps in the Rockies and Ontario and eastern resorts, are preparing for heavy business, while the Empress Hotel at Victoria and the Hotel Vancouver at Vancouver expect to share fully in the tourist movement.

NO APPEAL IN  
HIT-RUN CASE

B.C. Statute In Accident Cases to Be Changed

The section of the B.C. Motor Vehicle Act covering hit-run driving will either be withdrawn or altered, it was indicated this morning by Premier Pattullo when he said the government would not appeal the decision of Magistrate Mackenzie Matheson in Vancouver that the section was ultra vires of the province.

The Vancouver magistrate recently dismissed a charge against an R.C.M.P. officer, ruling that the section conflicts with the Criminal Code on the same point and is therefore superfluous.

The government, said the Premier, will not appeal the case but will take up the matter of straightening out the British Columbia law at the next session.

Outcome of the incident in Vancouver now rests with the authorities of that city who can lay a fresh interpretation under the Criminal Code if they wish, the Premier indicated.

Mill Rate By-law  
Expected April 26

Victoria's 1937 mill rate by-law will most probably be given its first reading by April 26, Alderman J. D. Hunter, chairman of the finance committee, stated today.

He expected next Monday's session on the current budget would leave the estimates in their final form and would allow the city comptroller-treasurer a full week in which to give them a final check.

By the time the mill rate by-law is ready for introduction, the city expects to have received definite word on the proposed amendments to the Fortin scheme, Alderman Hunter said.

## NEWS IN BRIEF

Purchase of three street lights at an estimated cost of \$43 each was authorized by the Saanich Council yesterday evening.

Theft of a grass armchair from his garden at 1035 Mears Street, has been reported to city police by W. T. Bridges. The chair was valued at \$6.

Harvey Kavaner, Winnipeg grain man, has requested an extension of another fifteen days on his option on the grain elevator in a letter received at the City Hall yesterday.

Leo P. Williams, assistant district manager, California Fruit Exchange, Exeter, Calif., is vacationing with Mrs. Williams at the Empress Hotel. They expect to leave for the south tomorrow.

The City Council's reply that it was not prepared to reopen the Duesch Street Fire Hall for the payment of \$15,000 annually by the municipality, was received and filed without comment by the Oak Bay Council yesterday.

A by-law authorizing the paving of Mountjoy Avenue at a cost of \$1,750 reached its final stages with the Oak Bay Council yesterday. Further readings were given after the council had a court of revision at which no protests on the project were heard.

The annual meeting of the Victorian Archers will be held, this evening at 8 o'clock at the home of Walter E. Adams, 1790 Beach Drive. All members and interested friends are invited to attend as important business will be discussed.

Tenders for the repair of the roof of the Worst Mill Building, along with an estimate of costs for putting a new floor in the structure, for which a lease has been given to the Department of National Defence will be called by the city's land committee.

Ward Three Liberal Association will hold a regular meeting this evening in the Liberal headquarters, Government Street, at 8 o'clock. Attendance of all members is requested as much important business will be discussed. C. J. McDowell will be the speaker, his subject being "Victoria's Big Opportunity."

The new Sooke River wooden siphon project should be completed within the next three weeks, G. M. Irwin, city water commissioner, stated yesterday. Other works now under way include thorough cleaning of Smith's Hill reservoir and filling in the street car strips on the Johnson Street Bridge.

Renewal of auto insurance on municipally operated vehicles will shortly come up for consideration by the Saanich Council. Tenders for the insurance will close on April 21 and they will be referred to a special committee of the council for report. Those named on the committee were Councillors John Watson, A. G. Lambrick and E. C. Warren.

Application of Charles H. French, Gorge Road, to have improvements effected to the access to his property at the corner of Tilmie and Glenford Avenues was referred to the municipal engineer for report by the Saanich Council yesterday evening. Mr. French stated his intention was to build six new homes on the property. The houses will be built one at a time and will be of the small, attractive type.

In the Sunday school hall of Emmanuel Baptist Church, tomorrow evening at 8 o'clock, the Croft Studio Players under the direction of Miss Nellie Scowcroft, will present two short plays. Other items of interest will be recitations by Miss Eva Young and Leonard Taylor and monologues by Miss Bessie McMaster and Miss Winifred White. A community sing song will be by Don Smith. The public is invited to attend.

With a view to having the government take over the maintenance of Wilkinson Road and Glenford Avenue as primary highways, a special committee of the Saanich Council was named yesterday evening to interview N. W. Whitaker, M.P.P. for Saanich. The question was brought up by Councillor G. A. Austin and he was made chairman of the committee, with Councillors E. C. Warren and L. H. Pasmore and Reeve Crouch.

There was a large attendance of members and friends at the meeting of the Oaklands Gospel Hall Y.P.S. Wednesday. Group three provided an interesting programme. After the singing practice, the scripture lesson was read by Mary Stewart. The topic for the evening, "Fulfilled and Unfulfilled Prophecy," was led by H. L. Hopkins, guest speaker. Ted Wiley and Lloyd Vale took part during the evening Norman Duckworth and Jean Atcheson rendered a duet and L. Robinson an instrumental solo. Refreshments were served.

HEAR HOW TO  
AVOID LIENS

Entanglements Rarely Come With Proper Contracts. Realtors Told

If proper care is taken on the part of the owner, it is rare for a mechanic's lien to be placed on a building or piece of property, J. A. Bennell told the Real Estate Board of Victoria at its luncheon in Spencer's dining-room today.

The majority of disputes involving liens came about through extra work which was not properly provided for, and through word-of-mouth arrangements with contractors.

Every piece of work to be done on a building should be properly contracted for in writing, he said.

In the matter of the purchase of property, Mr. Bennell said: "The public does not realize the dangers incurred by making a small saving by eliminating the agent's fee." He quoted cases where the purchaser had only discovered liens on the property after the transaction was completed.

Mr. Bennell gave a brief account of the operation of mechanic's liens, saying they were not aimed particularly for the advantage of any one party, but for the ensuring of general fair practices.

## JANITORS' WAGES

Earlier in the meeting Mr. Bennell reported briefly on negotiations now under way between the Victoria board, the Vancouver Real Estate Exchange and the provincial Board of Industrial Relations in the matter of janitors' wages.

The question of a new wage scale had been brought up in Vancouver exchange was at present engaged in drawing up a wage scale somewhat along the lines of that sought by the mainland janitors, and the Victoria board would join in discussions when the draft was completed.

The association offered its co-operation to the Vancouver Island Horticultural Association's spring flower show, to be held under the sponsorship of the Empress Hotel April 24 to May 1.

Members expressed hope for the speedy recovery of H. G. Heisterman, at present in hospital.

Michael P. McCaffery, manager of Albert and McCaffery Ltd., and a former mayor of Prince Rupert, is registered at the Empress today.

For neglect of duty in connection with the escape of a prowler from Leason's Service Station, Oak Bay Junction, this week, Sgt. S. Wilkinson was reprimanded by the City Police Commission yesterday.

A verdict of found drowned was returned by the coroner's jury which this morning conducted an inquest into the death of Mrs. Dorothy May Price, 3471 "S" Street, whose body was found in the waters of the Gorge this week.

An orchid with eight mauve-petaled blooms is the pride of Fred Saunders, head gardener, at the Empress Hotel. It is known as the Catalpa Inter-medites Yollasia and is to be found posing in a brass jardiniere in the hotel rotunda. Last year the orchid boasted five blooms.

Cars driven by H. Bates, 2305 Willows Road, and Miss L. Pearson, Selkirk Lodge, were badly damaged in an accident on View Street, between Douglas and Blanshard Streets, at 10:45 o'clock last night, according to a city police report. No one suffered injuries.

Low Tim Sing, sixty-eight-year-old Chinese of 738 Pembroke Street, died while visiting a friend in a store at the corner of Plaquard and Government Streets yesterday, according to a city police report. Dr. A. D. Bechtel was called and pronounced life extinct and Coroner E. C. Hart ordered removal of the body to Thomson's Funeral Parlor.

Hon. H. G. Perry, Speaker of the Eighteenth B.C. Legislature, paid a visit to Victoria today to clean up a few details of private business before returning to his northern riding of Prince George to enter the election campaign. Mr. Perry will be the Liberal candidate again. R. H. Carson, who represented Kamloops as a Liberal, was also here today, conferring on departmental matters.

The Ex-service Men's League in Canada has compiled an informative fifty page booklet containing data of interest to ex-soldiers. Two articles advocate federal responsibility for all needy veterans. Other articles deal with the War Veterans' Assistance Commission, information on how to apply for the war veterans' allowance and recent amendments to the Pension Act. The book can be secured from the Ex-service Men's League, 340 Cambie St. Vancouver.

## Obituary

CAROLINE DE WARRANER

There passed away at St. Joseph's Hospital on Wednesday after a long illness, Mrs. Caroline de Warraner, aged seventy years, of Toronto Apartments, 504 Toronto Street. She was born in India and had been a resident of this city for thirty years. She is survived by relatives in England. The remains are resting at the Thomson Funeral Home, from where the funeral will take place on Saturday at 8:45, proceeding to St. Andrew's Cathedral where Mass will be celebrated at 9 o'clock by Father C. T. Albany. Interment will be in Ross Bay Cemetery. Funeral will be private and it is requested that no flowers be sent.

JOHN ALFRED SINCLAIR

The funeral of John Alfred Sinclair was held yesterday afternoon, Rev. W. G. Wilson, D.D., conducting the service in the presence of relatives and many friends. A profusion of beautiful floral tributes covered the casket and flower racks. The hymns sung were "Nearer, My God, to Thee" and "Abide With Me." "Peace, Perfect Peace" was sung as a solo by Mrs. F. Thomson. The remains were laid at rest in the family plot in Ross Bay Cemetery. The following were pallbearers: Robert Stacey, W. V. Merriam, Harry Gilbert, Neil Pollock, M. B. Pollock and E. V. Finland.

BENJAMIN REGINALD SNEEL

Funeral services for Benjamin Reginald Snell of 929 Island Road will be held tomorrow afternoon at 2:30 o'clock from the S. J. Curry and Son Funeral Home. Rev. Canon A. E. de L. Nunns will officiate and the remains will be laid to rest in Royal Oak Burial Park.

IRENE BROWN

A large congregation was present at the funeral of Mrs. Irene Brown, held yesterday afternoon in St. Mary's Church, Metcalchison, Rev. H. M. Bolton officiating. A profusion of beautiful floral tributes was received. The following were pallbearers: C. Cousins, H. Doyle, P. Brown, P. Brown Jr., J. D. Warren and Charles Oistead. The remains were laid at rest in St. Mary's Churchyard.

ARTHUR FRANCIS

Funeral services for Arthur Francis of Mount Talmie, who passed away yesterday at St. Joseph's Hospital, will be held at Hayward's B.C. Funeral Chapel tomorrow afternoon at 3:30 o'clock. R. C. J. Were will officiate and interment will be in Royal Oak Burial Park.

LEONARD D. CHETHAM

Funeral services for Leonard D. Chetham, who passed away yesterday morning at St. Joseph's Hospital, will be held at Hayward's B.C. Funeral Chapel tomorrow morning at 11 o'clock. Rev. J. S. A. Bastin will officiate and the remains will be forwarded to Vancouver for cremation.

JOHN MURRAY THYNE

The death occurred at the Royal Jubilee Hospital yesterday of John Murray Thyne, aged twenty-two years, youngest son of the late John Thyne, Edinburgh. He was born in Edinburgh, Scotland, and came to Canada nine years ago and is survived by his mother, Tulip Avenue, Mari-gold; his stepfather, two brothers, David of Namsa, Alta., at present in Victoria, and Fred Thyne, Edmonton. The funeral will be held in Hayward's B.C. Funeral Chapel tomorrow afternoon at 2 o'clock, and interment will be made in Royal Oak Burial Park.

ARTHUR JOHN SMYTH

A large gathering of friends were present yesterday afternoon at funeral services for Arthur John Smyth, 1021 Cook Street, who passed away Tuesday. Rev. Dr. W. J. Sippell conducted a very sympathetic service, during which two hymns were sung, "Breathe On Me Breath of God" and "Rock of Ages." The many beautiful floral tributes received testified to the esteem in which the late Mr. Smyth was held. The remains were laid to rest in the family plot at Ross Bay Cemetery with the following acting as pallbearers: Fred W. Francis, William Stears, R. J. Crozier Smith, Frank Tupman, A. W. Trevitt and Sidney White.

LOIS GIBSON

This morning at the Royal Jubilee Hospital, Mrs. Lois Gibson of 856½ Yates Street, passed away, aged fifty-one years. Born in Paola, Kansas, she has been a resident of this city for fifteen years. She is survived by one sister, Mrs. Richard Sullivan of Port Angeles. The remains are resting at the chapel of the Sands Mortuary Ltd. and will be forwarded Sunday morning to Port Angeles where interment will take place.

ONTARIO LIKES  
SPECIAL ROADS

Practically "Costless" and Very Satisfactory, Eastern Visitor Says

Calcium chloride treatment of roads in Ontario is proving eminently satisfactory and there are now 1,500 miles of these special roads in that province, R. W. Atkinson of Montreal, vice-president of Brunner, Mond & Company of Toronto, and Winn & Holland of Montreal, said today at the Empress Hotel.

These roads are called "costless" in Ontario and in many parts of the United States, where experiments in recent years have resulted in a steady increase of their mileage.

Although they are not hard-surfaced in the ordinary sense of the word, they are dustless, Mr. Atkinson said. They are actually gravel roads. The gravel and stone surface is "consolidated" by mixing with clay and then treated with calcium chloride, which supplies moisture to keep the earth particles damp and thus do their job of binding the gravel in any weather conditions.

## GREAT SAVING

Because the treatment saves so much gravel they are known in the east as "costless." Traffic wear is resisted, maintenance costs reduced to a minimum and the roads remain dustless in the driest weather.

In Victoria with Mr. and Mrs. Atkinson is Russell Fraser, manager in Vancouver of Beaver Soap and Chemicals Limited. He said experiments in British Columbia by government engineers with treated roads are turning out well, although as yet they have been on a comparatively small scale, as mixing and methods adapted to local conditions are being studied.

door scenes of the current Royal Canadian Mounted Police picture, "Murder Goes North."

The piece of northwestern atmosphere did not come from the red coats of the mounties nor from their horses. It came with lunch.

The lunches for the members of the cast and production crew were shipped out by truck to the farm, then they were placed on a crude sled and hauled by two horses up the side of the hill to the movie company's location. Mrs. Nina Gray, housekeeper of the Dominion Hotel, in charge of the catering, walked alongside.

Today the sled was in action again carrying sustenance to the company, which was back at the farm early this morning in spite of the doubtful weather, making the most of the bursts of sunshine.

Other outdoor locations on this picture will be Langford, Beaver and Elk Lake and the northwestern town street built in the Willows grounds between the old automobile building now used by Central Films for sorting everything from chromium-plated tables to oak fireplaces and automobile bodies, and the stables.

## Tarzan's Quest

Tarzan was determined now to rescue the black girl from the Kavarra kidnapper. Of course, he might take her by force. Not! He did not wish to arouse Yden's enmity. The white savage might be useful to him when he reached the mysterious village of the Kavarra.

So Tarzan waited, patient as any other beast of prey that watches for the right moment to attack. Darkness was approaching when the Kavarra seized the girl and threw her roughly to the ground. She fought like a young lioness, but Yden was fierce and powerful.

He deftly bound her hands behind her back and thrust her legs so tightly she could scarcely move. Terrified, she lay trembling. "Now," said the kidnapper, "Yden can sleep. You had better sleep, too. Tomorrow we have a long march. Yden will not carry you."

## VICTORIAN IS NINETY TODAY

William Alexander Jackson, Government Street, Lived In Canada

William Alexander Jackson, 506 Government Street, today celebrated his nineteenth birthday. Confined to bed with rheumatism he received the congratulations of his Victoria acquaintances. Including a large number of Oddfellows with whom he has been associated for sixty-seven years.

Born on April 16, 1847, in Toronto, Mr. Jackson first started working as a youth of twenty for the old Northern Railroad Company in Toronto. Subsequently he joined the C.P.R. and from this service he was retired in 1913. He has lived for forty years in British Columbia, principally at Slocan. He came to Victoria four years ago.

In 1876 Mr. Jackson drove the train from Collingwood, Ont., to Toronto with Lord Dufferin, then Governor-General aboard. He covered the ninety-five miles in three hours and five minutes and established a record for that time.

Among other interesting experiences, he has had the occasion when he was engaged by the federal government to watch bridges on the Thames River at St. Mary's, Ont., during the Fenian raids.

He has been a member of Queen's City Lodge No. 76, I.O.O.F., of Toronto for sixty-seven years and in Slocan he was the recipient of a past grand master's jewel in recognition of twenty-five years' service.

## Etiquette

By ROBERTA LEE

1. When a woman who is wearing street clothes in the evening goes to a hotel dance, does she wear a hat?  
2. Is it poor taste for a girl to put on make-up while she is on the dance floor?  
3. Must the men who have attended a dinner before going to a dance ask the hostess and other girls present at the dinner for a dance?  
4. Is it polite to insist that another person drink when he once refuses?  
5. Is it courteous for a hostess to offer cigarettes to both men and women when she herself is not smoking?

What would you do if—  
You are at a dance where there is a stag line and you are having a miserable time being a wallflower—  
(a) Leave?  
(b) Try to grin and stick it out?  
(c) Go to the dressing-room and wait until the dance is over?

## ANSWERS

1. Yes, a woman always wears a hat with street clothes.  
2. Yes, she should go to the dressing room.  
3. Yes, they are even spoken of as "duty" dances.  
4. No, it is rude and inexcusable.  
5. Yes.  
Best "What Would You Do" solution—(a). This is one time when it is wisest to admit defeat.

## ROYAL OAK

In honor of her daughter Phyllis, who is leaving for England en route to Denmark, Mrs. L. R. Towler entertained at a delightful dinner at her home on Halliburton Road, Tuesday evening. The rooms were beautifully decorated with Japanese plum blossom and daffodils and buffet supper was served. Music was supplied by Len Acres' orchestra.

On Monday evening the members of St. Michael's A.Y.F.A. entertained at a supper in the Parish Hall in honor of Miss Towler. Miss Dora Young, on behalf of the members, presented Miss Towler with a leather-bound diary. Mrs. Towler entertained a number of friends at bridge and five hundred on Wednesday evening. In honor of her daughter. Prizes were won by Mrs. A. L. Ford, Mrs. S. Vantreigh, P. Tuckey and V. E. L. Goddard.

The girl was too frightened to reply. Her captor threw himself on the ground near her. Both lay quietly. The jungle, too, was quiet except for the roar of a distant lion. But, above them, a silent figure moved stealthily closer through the trees.

Patience and Grit Needed in Marriage	Dorothy Dix	Old Ideas Still Good
--------------------------------------	-------------	----------------------

A YOUNG GIRL was explaining to me the other day how far behind the times her parents are. "Why," she exclaimed, "they are so old-fashioned that they actually believe that when people get married they should stay married. Positively. Can you tie it?"

To her mind that view of marriage was just as archaic as believing that the earth is flat and that the sun moves, and just as much outmoded as traveling in an ox wagon or using tallow dips. She lumped easy divorce along with electricity, motor-cars, steam heating and other modern improvements and conveniences, and she was filled with pity for the poor dubs who used to regard marriage as a binding contract.

Therein lies the explanation of why divorce has become so common that it almost seems as if a man and woman who are not continually swapping partners are as lacking in enterprise as if they didn't turn in their old automobile every two years and get the latest model with all the newest streamlined effects and the fanciest gadgets.

This girl is typical of her day and generation, and her matrimonial creed is that of her fellows. They do not look upon marriage seriously. They regard it as a romantic interlude, a gay adventure, something one does because the remainder of the crowd are doing it, but whose results don't greatly matter because it's temporary. They don't have to stick to marriage unless they like it. There is always Reno.

Probably not one young couple in ten who so glibly swear before the altar to take each other for better or worse and to cherish each other in sickness and in health until death do them part, have the slightest intention of keeping their oath unless the conditions of their marriage happen to make it easy for them to do so. They hope that their marriage "will take," as the slang expression goes, and that they will continue to be in love with each other and everything will be prosperous with them.

But if they bore each other and get on each other's nerves, if the husband gets to plundering and the wife finds somebody who "understands" her better than her husband does, if the husband grows over the bills and the wife doesn't like housework, they quit. What's the use of standing by a bad bargain? Maybe they would have better luck next time and get a winner instead of a loser.

No one can deny that the reason divorce is so common among young married couples that they frequently part before they have got the gloss worn off their bridal presents is because they regard marriage as an experiment, not something to which they have definitely committed themselves for the remainder of their lives.

That is why so many of them never put forth an honest effort to make their marriages successes. They don't feel that they have to adjust themselves to each other because they are going to have to live together for thirty or forty years. They look about for some other man or woman whom they think would be more congenial. They don't try to unite in a common purpose of working together to make a fortune and home and rear a family. Because everything wasn't all their fancy painted it they smash the marriage into smithereens. They don't try to make the best of their bargain. They wretch on it.

No business, no profession, no enterprise in the world can be made a success if it is entered into in this spirit. No man who drifts from occupation to occupation and who changes from one thing to another when he encounters difficulties or loses his enthusiasm for what he is doing, ever makes a go of his undertaking. It is the men who have the will to do what they set out to do and the courage to carry on who win out. Not the quitters.

That is just as true of marriage as it is of business. It is the men and women who marry for keeps and who know their marriage is going to be what they make it, who come unscathed to their golden wedding days. And just as many a business that was a failure in its beginning makes the partners who stuck to it and put their hearts and backs into it rich in the end, so many a marriage that was full of disappointments in its beginning is turned into a glorious happy union by the husband and wife who had the wisdom and the patience to work out a successful scheme of life together.

## North Atlantic Islands

V-NEWFOUNDLAND  
Not quite 440 years ago, an English king or his secretary wrote down certain words, as part of an expense account. The words were:  
"August 10, 1497—To him that found the new isle, ten pounds."  
That is believed to be our first written record of Newfoundland, an island at the mouth of the Gulf of St. Lawrence. The money was paid to John Cabot, who crossed the Atlantic in that year.

Off the Grand Banks of Newfoundland.

cloud-like mists which hang over land and sea.  
East of Newfoundland, the fogs are about as bad as they could be. This is the region of the Grand Banks, which are world-famous for their fish. Most of the island's wealth has come from codfish, herring and salmon. The Grand Banks are shallow parts of the ocean, from fifty feet to 1,000 feet deep, and stretch for hundreds of miles along the eastern coast of Newfoundland, and toward the southeast. Under the water are mounds of sand, gravel and broken rock. These mounds may be sunken islands, covered by water long ago.

About 285,000 people live in Newfoundland. They are mainly of English, Scotch and Irish descent. In addition to fishing, they carry on lumbering, mining and farming. Potatoes, turnips, carrots, barley, oats and other crops are raised with success. With Labrador, the island makes up the Dominion of Newfoundland, a part of the British Empire but separate from Canada.

## HOROSCOPE

"The stars incline, but do not compel."

SATURDAY, APRIL 17, 1937

According to astrology adverse planetary influences rule after the early hours of this day. The morning is a time for careful planning and cautious letters.

Women should follow routine tasks and recreations under this direction of the stars. Extreme discretion is enjoined, as there are perils in drinking.

This may be a disappointing time for theatres, although the outlook for summer stock companies is promising in eastern states.

Labor is subject to stimulating and encouraging planetary guidance, but there is danger that success may create an overbearing attitude toward employers.

As the stars are interpreted, capitalists and manufacturers will sustain serious difficulties that retard the progress of big enterprises.

Jupiter presages for eminent jurists the most unusual professional experience. The hopes of many to become judges may be blighted.

Changes on the benches of courts of high rank are prognosticated, but they will be brought about by natural causes more frequently than by political determination.

While this configuration prevails shopping for sport clothes should be more successful than evening clothes for women, according to foreseen summer resort exigencies.

Persons whose birthdate is 11 have the augury of a year of great success. Expansion of business is foretold for many. For women whose social recognition is probable—honors for a few.

Children born on this day may be generous, magnetic and fond of publicity. Subjects of this sign usually have a strong physique and active brain.

William Davidge, actor, was born on this day, 1814. Others who have celebrated it as a birthday include James Oglethorpe, lexicographer, 1797; William Rufus Day, jurist, 1848; and Samuel Austin Allibone, bibliographer, 1818.
